Special Educational Needs and School Improvement Apr 04 2020 Providing a practical guide to strategic management in the field of special educational needs, this text gives the reader a framework for raising achievement throughout the school. By focusing on how to manage SEN strategically, rather than on planning for individual children, it shows how you can make it part of the overall school improvement process. The text also provides tools that SENCOs, headteachers and governors can use to analyze data, set objectives, measure and evaluate outcomes for SEN just as they do for other areas of the curriculum. Included are sections on: school self-evaluation; school development plans; the evidence base for different forms of provision; developing staff; and how to minimize bureaucracy. Helpful for OFSTED planning and securing best value, "Special Educational Needs and School Improvement" also enables schools to target limited resources where they should have most impact on promoting inclusion and raising attainment for all.

How to do Maths so Your Children Can Too Oct 11 2020 Does the sight of your child's maths homework fill you with dread? Do you look for any excuse when they ask you to explain equations, fractions or multiplication? Maths can often leave children - and parents - perplexed. How to do Maths so Your Children Can Too works through maths topics with a simple step-by-step approach, explaining the new ways of teaching maths that confuse so many parents. This book will show you how to: - Master 'number bonds' and 'number lines' - Divide by 'chunking' - Multiply using 'the grid method' - Work with fractions, percentages and ratios - Understand number and place value Bridging the gap between primary and secondary school - when children often struggle - and packed full of simple, accessible examples, this essential guide will banish your maths phobia and take the pain out of homework time.

Errors and Misconceptions in Maths at Key Stage 2 Jun 30 2022 The activities in this book are designed both to help children to learn and to understand math concepts, and also to prepare them for taking SATS papers at KS2. There is plenty of research evidence to suggest that children are helped in their understanding of math problems if teachers focus on common misconceptions, and if children are given opportunities for discussion and explanation of their own understanding. Children can also feel stigmatized by being made to focus on their own errors. Mike Spooner has developed activities that present already completed work which children then assess, correct and discuss - in this way they can analyze mistakes without damage to their own self-esteem. The activities are presented in the same format as the SATS papers, to give children practice in coping with that format. The book also contains writing frames that children can use to structure their discussions of math problems.

Grammar, Punctuation and Spelling - Year 2 Sep 09 2020 Just like the real thing - only shorter! Help your child prepare for the SATS with these bite-sized National test papers. This book offers 10 complete Grammar and Punctuation tests and 10 Spelling tests in a flexible format for use at any time of the day. Question types and mark schemes match the format of the National tests and offer an authentic SATS experience. Spelling tests come with transcripts though online audio versions are also available. A handy progress chart is also supplied to give you some indication of the scores your child is likely to attain.
