A New Introduction to Chaucer Aug 19 2021 This new introduction to Chaucer has been radically rewritten since the previous edition which was published in 1984. The book is a controversial and modern restatement of some of the traditional views on Chaucer, and seeks to present a rounded introduction to his life, cultural setting and works. Professor Brewer takes into account recent literary criticism, both challenging new ideas and using them in his analysis of Chaucer's work. Above all, there is a strong emphasis on leading the reader to understand and enjoy the poetry and prose, and to try to understand Chaucer's values which are often seen to oppose modern principles. A New Introduction to Chaucer is the result of Derek Brewer's distinguished career spanning fifty years of research and study of Chaucer and contemporary scholarship and criticism. New interpretations of many of the poems are presented including a detailed account of the Book of the Duchess. Derek Brewer's fresh and narrative style of writing will appeal to all who are interested in Chaucer, from sixth-form and undergraduate students who are new to Chaucer's work through to more advanced students and lecturers.

[The Brewer's Tale: A History of the World According to Beer](#) Oct 21 2021 Winner of 2014 U.S. Gourmand Drinks Award • Taste 5,000 years of brewing history as a time-traveling homebrewer rediscovers and re-creates the great beers of the past. The Brewer's Tale is a beer-filled journey into the past: the story of brewers gone by and one brave writer's quest to bring

them—and their ancient, forgotten beers—back to life, one taste at a time. This is the story of the world according to beer, a toast to flavors born of necessity and place—in Belgian monasteries, rundown farmhouses, and the basement nanobrewery next door. So pull up a barstool and raise a glass to 5,000 years of fermented magic. Fueled by date-and-honey gruel, sour pediococcus-laced lambics, and all manner of beers between, William Bostwick's rollicking quest for the drink's origins takes him into the redwood forests of Sonoma County, to bullet-riddled South Boston brewpubs, and across the Atlantic, from Mesopotamian sands to medieval monasteries to British brewing factories. Bostwick compares notes with the Mt. Vernon historian in charge of preserving George Washington's molasses-based home brew, and he finds the ancestor of today's macrobrewed lagers in a nineteenth-century spy's hollowed-out walking stick. Wrapped around this modern reportage are deeply informed tales of history's archetypal brewers: Babylonian temple workers, Nordic shamans, patriots, rebels, and monks. The Brewer's Tale unfurls from the ancient goddess Ninkasi, ruler of intoxication, to the cryptic beer hymns of the Rig Veda and down into the clove-scented treasure holds of India-bound sailing ships. With each discovery comes Bostwick's own turn at the brew pot, an exercise that honors the audacity and experimentation of the craft. A sticky English porter, a priceless rare Belgian, and a sacred, shamanic wormwood-tinged gruit each offer humble communion with the brewers of yore. From sickly sweet Nordic grogs to industrially fine-tuned fizzy lager, Bostwick's journey into brewing history ultimately arrives at the head of the modern craft beer movement and gazes eagerly if a bit blurry-eyed toward the future of beer.

Suture Oct 28 2019 To make her films, Eva must take out her eyes and use them as batteries. To make her art, Finn must cut

open her chest and remove her lungs and heart. To write her novels, Grace must use her blood to power the word processor. Suture shares three interweaving stories of artists tearing themselves open to make art. Each artist baffles their family, or harms their loved ones, with their necessary sacrifices. Eva's wife worries about her mental health; Finn's teenager follows in her footsteps, using forearm bones for drumsticks; Grace's network constantly worries about the prolific writer's penchant for self-harm, and the over-use of her vitals for art. The result is a hyper-real exploration of the cruelties we commit and forgive in ourselves and others. Brewer brings a unique perspective to mental illness while exploring how support systems in relationships--spousal, parental, familial--can be both helpful and damaging. This exciting debut novel is a highly original meditation on the fractures within us, and the importance of empathy as medicine and glue.

Baudar reveals both the underlying philosophy and the practical techniques for making your own delicious concoctions, including: Wild sodas Country wines Primitive herbal beers Meads Traditional ferments like tiswin and kvass. The book opens with a retrospective of plant-based brewing and ancient beers. The author then goes on to describe both hot and cold brewing methods and provides lots of interesting recipes; mugwort beer, horehound beer, and manzanita cider are just a few of the many drinks represented. Baudar is quick to point out that these recipes serve mainly as a touchstone for readers, who can then use the information and techniques he provides to create their own brews, using their own local ingredients. *The Wildcrafting Brewer* will attract herbalists, foragers, natural-foodies, and chefs alike with the author's playful and relaxed philosophy. The Power of Two Dec 11 2020 One of the most compelling figures ever to lace on a pair of skates, Carl Brewer was a gifted skater and stickhandler, renowned for his ability to control the pace of a game and to goad opponents into costly errors. His talents made him an NHL all-star and one of the cornerstones of a Toronto Maple Leaf dynasty. But he was also a loner playing a team game, a free spirit in an era when players were expected not to make waves. Teammates and management alike wrote him off as an eccentric, an enigma. At what should have been the peak of his career, he abandoned the game, embarking on a lifelong search for meaning in his life. Along the way he met Susan Foster, and together they would discover that purpose. *The Power of Two* tells the story of how Carl and Susan successfully battled the hockey establishment over the issue of player pensions. Together they uncovered fraud, corruption, and betrayal of trust, ultimately helping bring down the powerful Alan Eagleson. *The Power of Two* also provides intimate insights into Brewer, who was aptly remembered as a magnificent, misunderstood fanatic, and his enduring bond with the life partner and ally whose tireless support he depended on

Unwinding Anxiety Mar 26 2022 New York Times and Wall Street Journal bestseller A step-by-step plan clinically proven to break the cycle of worry and fear that drives anxiety and addictive habits We are living through one of the most anxious periods any of us can remember. Whether facing issues as public as a pandemic or as personal as having kids at home and fighting the urge to reach for the wine bottle every night, we are feeling overwhelmed and out of control. But in this timely book, Judson Brewer explains how to uproot anxiety at its source using brain-based techniques and small hacks accessible to anyone. We think of anxiety as everything from mild unease to full-blown panic. But it's also what drives the addictive behaviors and bad habits we use to cope (e.g. stress eating, procrastination, doom scrolling and social media). Plus, anxiety lives in a part of the brain that resists rational thought. So we get stuck in anxiety habit loops that we can't think our way out of or use willpower to overcome. Dr. Brewer teaches us to map our brains to discover our triggers, defuse them with the simple but powerful practice of curiosity, and to train our brains using mindfulness and other practices that his lab has proven can work. Distilling more than 20 years of research and hands-on work with thousands of patients, including Olympic athletes and coaches, and leaders in government and business, Dr. Brewer has created a clear, solution-oriented program that anyone can use to feel better - no matter how anxious they feel.
