Shanghai under fire May 16 2021 Shanghai under fire (1938). Shanghai evening post and mercury Living with Jim Crow Mar 02 2020 Using first-person narratives collected through oral history interviews, this groundbreaking book collects black women's memories of their public and private lives during the period of legal segregation in the American South.

North of the Color Line Dec 11 2020 North of the Color Line examines life in Canada for the estimated 5,000 blacks, both African Americans and West Indians, who immigrated to Canada after the end of Reconstruction in the United States. Through the experiences of black railway workers and their union, the Order of Sleeping Car Porters, Sarah-Jane Mathieu connects social, political, labor, immigration, and black diaspora history during the Jim Crow era. By World War I, sleeping car portering had become the exclusive province of black men. White railwaymen protested the presence of the black workers and insisted on a segregated workforce. Using the firsthand accounts of former sleeping car porters, Mathieu shows that porters often found themselves leading racial uplift organizations, galvanizing their communities, and becoming the bedrock of civil rights activism. Examining the spread of segregation laws and practices in Canada, whose citizens often imagined themselves as devoid of racism, Mathieu historicizes Canadian racial attitudes, and explores how black migrants brought their own sensibilities about race to Canada, participating in and changing political discourse there.

Bloody Saturday in the Soviet Union Aug 31 2022 This is the first complete story, long hidden by the Soviet Union, of the attack by government forces on striking workers in 1962, resulting in 21 dead and hundreds of others wounded or imprisoned. Only with the advent of glasnost in the 1980s did the tight lid of secrecy placed on the entire episode by the Soviets begin slowly to lift.

Shanghai Grand Dec 31 2019 On the eve of WWII, the foreign-controlled port of Shanghai was the rendezvous for the twentieth century's most outlandish adventurers, all under the watchful eye of the fabulously wealthy Sir Victor Sassoon. ?? Emily Hahn was a legendary New Yorker writer who would cover China for nearly fifty years, and play an integral part in opening Asia up to the West. But at the height of the Depression, "Mickey" Hahn, had just arrived in Shanghai nursing a broken heart after a disappointing affair with an alcoholic Hollywood screenwriter, convinced she would never love again. After entering Sassoon's glamorous Cathay Hotel, Hahn is absorbed into the social swirl of the expats drawn to pre-war China, among them Ernest Hemingway, Martha Gellhorn, Harold Acton, and the colourful gangster named Morris "Two-Gun" Cohen. But when she meets Zau Sinmay, a Chinese poet from an illustrious family, she discovers the real Shanghai through his eyes: the city of rich colonials, triple agents, opium-smokers, displaced Chinese peasants, and increasingly desperate White Russian and Jewish refugees—a place her innate curiosity will lead her to discover first hand. But danger lurks on the horizon and Mickey barely makes it out alive as the brutal Japanese occupation destroys the seductive world of pre-war Shanghai and Mao Tse-tung's Communists come to power in China.

Last Boat Out of Shanghai Feb 10 2021 The dramatic real life stories of four young people caught up in the mass exodus of Shanghai in the wake of China's 1949 Communist revolution—a heartrending precursor to the struggles faced by emigrants today. “A true page-turner . . . [Helen] Zia has proven once again that history is something that happens to real people.”—New York Times bestselling author Lisa See NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR AND THE CHRISTIAN SCIENCE MONITOR • FINALIST FOR THE PEN/JACQUELINE BOGRAD WELD AWARD FOR BIOGRAPHY Shanghai has historically been China's jewel, its richest, most modern and westernized city. The bustling metropolis was home to sophisticated intellectuals, entrepreneurs, and a thriving middle class when Mao's proletarian revolution emerged victorious from the long civil war. Terrified of the horrors the Communists would wreak upon their lives, citizens of Shanghai who could afford to fled in every direction. Seventy years later, members of the last generation to fully recall this massive exodus have revealed their stories to Chinese American journalist Helen Zia, who interviewed hundreds of exiles about their journey through one of the most tumultuous events of the twentieth century. From these moving accounts, Zia weaves together the stories of four young Shanghai residents who wrestled with the decision to abandon everything for an uncertain life as refugees in Hong Kong, Taiwan, and the United States. Benny, who as a teenager became the unwilling heir to his father's dark wartime legacy, must decide either to escape to Hong Kong or navigate the intricacies of a newly Communist China. The resolute Annuo, forced to flee her home with her father, a defeated Nationalist official, becomes an unwelcome exile in Taiwan. The financially strapped Ho fights deportation from the U.S. in order to continue his studies while his family struggles at home. And Bing, given away by her poor parents, faces the prospect of a new life among strangers in America. The lives of these men and women are marvelously portrayed, revealing the dignity and triumph of personal survival. Herself the daughter of

immigrants from China, Zia is uniquely equipped to explain how crises like the Shanghai transition affect children and their families, students and their futures, and, ultimately, the way we see ourselves and those around us. Last Boat Out of Shanghai brings a poignant personal angle to the experiences of refugees then and, by extension, today. "Zia's portraits are compassionate and heartbreaking, and they are, ultimately, the universal story of many families who leave their homeland as refugees and find less-than-welcoming circumstances on the other side."—Amy Tan, author of *The Joy Luck Club*

Bloody Saturday Nov 02 2022 Saturday, August 14, 1937--that summer Shanghai was expecting to be hit by a typhoon of "violent intensity." The typhoon passed, but what did strike Shanghai was a man-made typhoon of bombs and shrapnel that brought aerial death and destruction such as no city had ever seen before. The clock outside Cathay Hotel stopped at 4:27 p.m. precisely as the first bombs landed on the junction of the Nanking Road and the Bund; the second wave of explosions struck the dense crowds outside the Great World amusement center in the French Concession. This book reconstructs the events of that dreadful day from eyewitness accounts. No truth is hidden behind French's masterful writing, as you'll weep through loss of real people in history and get to know Shanghai on an intimate level.

Resisting Hitler : Mildred Harnack and the Red Orchestra Sep 27 2019 This gripping and heartbreaking narrative is the first full account of an American woman who gave her life in the struggle against the Nazi regime. As members of a key resistance group, Mildred and her husband, Arvid Harnack, assisted in the escape of German Jews and political dissidents, and for years provided vital economic and military intelligence to both Washington and Moscow. But in 1942, following a Soviet blunder, the Gestapo arrested, tortured and tried some four score members of the Harnack's group, which the Nazis dubbed the Red Orchestra. Mildred Fish-Harnack was guillotined in Berlin on February 16, 1943, on the personal instruction of Adolf Hitler--the only American woman executed as an underground conspirator. Yet as World War II ended and the Cold War began, her courage, idealism and self-sacrifice went largely unacknowledged in America and the democratic West, and were distorted and sanitized in the Communist East. Only now, with the opening of long-sealed archives, can the full story be told. Resisting Hitler is based on extensive interviews with Fish-Harnack family, friends and associates; it draws on personal correspondence and formerly classified German and Soviet KGB files and recently released CIA and FBI dossiers. It describes the life of a Wisconsin girl whose intelligence and beauty captivated a visiting scholar, Arvid Harnack, a member of a distinguished German academic family. It explores for the first time the complex familial connections of the Harnacks, Delbrucks and Bonhoeffers, twelve of whom were executed for resistance acts. And it details Mildred's friendship with Martha Dodd, daughter of FDR's ambassador to the Third Reich, whose affair with a Soviet diplomat led to his death. Moments before her death, Mildred said, "I have loved Germany so much." In this superbly told life of an unjustly forgotten woman, Shareen Blair Brysac depicts the human side of a controversial resistance group that for too long has been portrayed as merely a Soviet espionage network. The extraordinary story of Mildred Fish-Harnack's ten dramatic years of resisting the Nazi regime also reminds today's readers of the hard moral choices that beset opponents of a ruthless totalitarian dictatorship.

Another Bloody Saturday Apr 26 2022 Another Bloody Saturday is a book celebrating all that makes football the sport that it is. It explores the passions and devotion of those that support a team, a nation, a dream. By exploring football in the lower leagues and non-league, as well as lesser known clubs and nations abroad, the book attempts to reveal the true soul of football that is often lost among the glitz and glamour of the premier League and the Champions League. Ultimately, Another Bloody Saturday is about all that makes football so captivating and all-encompassing to so many, making a supporters team and club a near religion.

Red Plenty Nov 09 2020 The Soviet Union was founded on a fairytale. It was built on 20th-century magic called 'the planned economy', which was going to gush forth an abundance of good things that the penny-pinching lands of capitalism could never match. And just for a little while, in the heady years of the late fifties, the magic seemed to be working. Red Plenty is about that moment in history, and how it came and went away; about the brief era when, under the rash leadership of Nikita Khrushchev, the Soviet Union looked forward to a future of rich communists and envious capitalists, when Moscow would out-glimmer Manhattan, every Lada would be better engineered than a Porsche and sputniks would lead the way to the stars. It's about the scientists who did their best to make the dream come true, to give the tyranny its happy ending.

For a Better World Jan 12 2021 Canada's largest and most famous example of class conflict, the Winnipeg General Strike, redefined local, national, and international conversations around class, politics, region, ethnicity, and gender. The Strike's centenary occasioned a re-examination of this critical moment in working-class history, when 300 social justice activists, organizers, scholars, trade unionists, artists, and labour rights advocates gathered in Winnipeg in 2019. Probing the meaning of the General Strike in new and innovative ways, For a Better World includes a selection of contributions from the conference as well as others' explorations of the character of class confrontation in the aftermath of the First World War. Editors Naylor, Hinther, and Mochoruk depict key events of 1919, detailing the dynamic and complex historiography of the Strike and the larger Workers' Revolt that reverberated around the world and shaped the century following the war. The chapters delve into intersections of race, class, and gender. Settler colonialism's impact on the conflict is also examined. Placing the struggle in Winnipeg within a broader national and international context, several contributors explore parallel strikes in Edmonton, Crowsnest Pass, Montreal, Kansas City, and Seattle. For a Better World interrogates types of commemoration and remembrance, current legacies of the Strike, and its ongoing influence. Together, the essays in this collection demonstrate that the Winnipeg General Strike continues to mobilize—revealing our radical past and helping us to think imaginatively about collective action in the future.

From Shanghai to the Burma Railway Aug 07 2020 Richard Laird's previously unpublished record of his wartime experience as a Japanese prisoner of war ranks among the most graphic of this shocking and deservedly popular genre. Captured after fighting in the Malayan Campaign he was incarcerated in Changi before being drafted as slave labor with 'F' Force on the notorious Burma Railway. He was one of only 400 out of 1600 to survive Songkurai No 2 Camp, despite disease and terrible hardship. His moving memoir begins with a rare description of ex-patriate life in 1930's Shanghai with the Sino-Japanese war raging around the European cantonments. An additional dimension to his story is the developing relationship between the author and Bobbie Coupar Patrick to whom he became engaged shortly before the fall of Singapore. Bobbie's letters graphically described her dramatic escape to

Australia and work for Force 136. They were reunited in Colombo, Ceylon and their son has been instrumental in compiling this exceptional record. Three appendices round off this superb book including the official report on the hardships and losses suffered by 'F' Force.

Seeing Reds Oct 28 2019 At the end of World War I, Canada was poised on the brink of social revolution. At least that is what many Canadians, inspired by the Russian Revolution, hoped and others dreaded. Seeing Reds documents a turbulent period in Canadian history, when in 1918-19 a fearful government tried to suppress radical political activity by branding legitimate labor leaders as "Bolsheviks."

Working People Jul 18 2021 In this expanded and updated classic, Desmond Morton explores the history of the Canadian labour movement and brings the story to the present day with a discussion of globalization and its impact on workers. Working People examines the clash between the idealists, who fought for such "impossible" dreams as the eight-hour day, paid holidays, industrial democracy, and equality for woman, and the realists, who wrestled with the human realities of self-interest, prejudice, and fear. It focuses on workers - from 19th-century dock workers to teenage "crews" at McDonald's today - and documents their struggle for dignity and security in a constantly changing world.

After the Witch Hunt Dec 23 2021 As if she discovered a small army of silenced women captive in her pen, Megan Falley releases them in the spilled ink that is her most brilliant collection of poems, After the Witch Hunt. Demanding "if you really love a writer, bury her in all your awful and watch as she scrawls her way out," her book does exactly that. An incessant digging, a journey in building escape routes, armed with both humor and a brazen darkness, each poem in this book of bloodletting is another swing of the pick and axe in this young woman's labor, insistent upon light.

Winnipeg 1919 Apr 02 2020 On May 15, 1919 workers from across Winnipeg, ranging from metal workers to telephone operators, united to spark the largest worker revolt in Canadian history. Even the Winnipeg police voted to join the strike, although they remained on duty at the request of the strike committee in order to prevent martial law. Approximately 30,000 workers walked off the job over the next six weeks, and the city was overtaken by lively demonstrations and marches in what the media, the city's leaders, and the federal government called a "Bolshevik uprising." The clash ended violently when RCMP on horseback charged and shot into a crowd of striking workers resulting in deaths, beatings, and arrests. The strike was called off and workers returned to their jobs without having earned the rights to higher wages and collective bargaining. Following the strike, union leaders published this account of the events leading up to and during the strike. Their volume is the most significant primary source describing the workers' experience of the strike. This book offers the full document in its original format along with an introduction to the 1974 edition by labour historian and activist Norman Penner. His essay has had a major impact on later research. This volume also includes a new introduction by historian Christo Aivalis discussing how the lessons learned in 1919 remain relevant today. Also included in this book are the key documentary photographs of strike events, including a minute-by-minute sequence showing the final RCMP fatal assault on the strikers.

Soviet State and Society Under Nikita Khrushchev Jul 26 2019 This book examines the social and cultural impact of the 'thaw' in Cold War relations, decision-making and policy formation in the Soviet Union under Nikita Khrushchev. It highlights the fact that many of the reform initiatives generally associated with Khrushchev personally, and with his period of office more generally, often had their roots in the Stalin period both in their content and in the ways in which they were implemented.

Individual case studies explore key aspects of Khrushchev's period of office, including the introduction of the 1961 Communist Party Programme and popular responses to it, housing policy, the opening up of the Soviet Union to the West during the 1957 youth festival, public consultation campaigns and policy implementation in education and family law, the boost given to voluntary organisations such as women's councils and the trade unions, the reshaping of the internal Soviet security apparatus, the emergence of political dissent and the nature of civil-military relations as reflected in the events of the workers' uprising in Novocherkassk in 1962. The findings offer an important new perspective on the Khrushchev era.

Protest, Reform and Repression in Khrushchev's Soviet Union Jun 04 2020 Robert Hornsby draws on a range of declassified archival material to analyse political protest and government repression in post-Stalin USSR.

Rulers and Victims Jan 24 2022 Many westerners used to call the Soviet Union "Russia." Russians too regarded it as their country, but that did not mean they were entirely happy with it. In the end, in fact, Russia actually destroyed the Soviet Union. How did this happen, and what kind of Russia emerged? In this illuminating book, Geoffrey Hosking explores what the Soviet experience meant for Russians. One of the keys lies in messianism--the idea rooted in Russian Orthodoxy that the Russians were a "chosen people." The communists reshaped this notion into messianic socialism, in which the Soviet order would lead the world in a new direction. Neither vision, however, fit the "community spirit" of the Russian people, and the resulting clash defined the Soviet world. Hosking analyzes how the Soviet state molded Russian identity, beginning with the impact of the Bolshevik Revolution and civil war. He discusses the severe dislocations resulting from collectivization and industrialization; the relationship between ethnic Russians and other Soviet peoples; the dramatic effects of World War II on ideas of homeland and patriotism; the separation of "Russian" and "Soviet" culture; leadership and the cult of personality; and the importance of technology in the Soviet world view. At the heart of this penetrating work is the fundamental question of what happens to a people who place their nationhood at the service of empire. There is no surer guide than Geoffrey Hosking to reveal the historical forces forging Russian identity in the post-communist world.

My Life Is Chaos in Theory Feb 22 2022 This is the story of my life - as a teenager, anyway. Think of this as me time-traveling back to my high school days, only if it were filmed as a documentary and I was narrating it as an adult. It's a story about the struggles, tribulations, and trials that stood in my way and how years after the fact I'm still alive today. Even though my mental health may not be at its best, nor has it been, this is for those who want something to relate to. A story about life. A little four year adventure in my life so you know that even if life has beaten you into the dirt, you matter. You know why? I'm still kicking and screaming, letting life (and its manager) I'll burn its house down with the

lemons if it gives me any more of them. It's told through the eyes of my young adult self, looking back and telling it like it is. I know many people, young and old, who struggle with mental health and might be afraid to speak up about it. There's a stigma that surrounds it, a hatred for those who suffer, and some who fake it for attention. If you're one of those people who are struggling, this is for you. Everyone who lays low, all the ones who feel small, and insignificant. Here's my story. Enjoy. Sincerely, - Me

Breaking with the Past Aug 26 2019 From 1854 to 1952, the Chinese Maritime Customs Service delivered one-third to one-half of all revenue available to China's central authorities. Much more than a tax collector, the institution managed China's harbors and surveyed the Chinese coast. It oversaw a college training Chinese diplomats; translated legal, philosophical, economic, and scientific documents; organized contributions to international exhibitions; and pioneered China's modern postal system. After the 1911 Revolution, the agency began managing China's international loans and domestic bond issues, and in the 1930s, it created a coast guard to combat smuggling. The Customs Service was central to China's post-Taiping entrance into the world of modern nation-states and twentieth-century trade and finance, and this is the first comprehensive history of the Customs Service's activities and truly cosmopolitan nature. At times, the Service kept China together when little else did.

On the Side of the People Sep 07 2020 A comprehensive history of working people in Saskatchewan, from the mid-1800s to the present, in a handsome coffee-table format, including numerous historical photos of the personalities and events that bring it to life. This book is created for the working people that it celebrates. In a plain-spoken and engaging narrative style, it captures the events and the personalities that shaped the working people of Saskatchewan, and the life of the province that those workers built. Jim Warren tells the fascinating tale of jobs, working conditions, and the attempts to effect meaningful changes in the condition of workers' lives. Starting with the Fur Trade period, and moving through the arrival of the railroad brotherhoods, the emergence of the craft unions, two world wars, modernization, and into the present age, *Working in Saskatchewan* shows the evolution of the work force, and the relationship between that work force and both private and public sector employers. The book wraps up with a short chapter on the imagined future of labour in the province, in the voices of a series of speakers ranging from former Premier Allan Blakeney to ordinary workers on the floor of a recent sfl convention. *Working in Saskatchewan* also includes a number of features that will make it even more useful for private study or school work. Two comprehensive indexes detail the chief characters who played a role in the development of the labour movement, and a list of events and important topics. A series of informational appendices present statistical information relating to the Saskatchewan labour force - size of the organized and unorganized labour force, number of women in the work force, etc. There will also be a helpful glossary of the acronyms and abbreviations that characterize written or oral discussions about labour, and a genealogy of labour which charts the rise and growth of certain unions and their transformation into, or absorption by, others.

Racializing the Soldier Jun 24 2019 *Racializing the Soldier* explores the impact of racial beliefs on the formation and development of modern armed forces and the ways in which these forces have been presented and historicized from a global perspective. With a wide geographical and temporal spread, the collection looks at the disparate ways that race has influenced military development. In particular, it explores the extent to which ideas of racial hierarchy and type have conditioned thinking about what kinds of soldiers should be used and in what roles. This volume offers a highly original military, social and cultural history, questioning the borders both of racialization and of the military itself. It considers

the extent to which discourses of gender, nationality and religion have informed racialization, and probes the influence of expert studies of soldiers as indicators of national population types. By focusing mostly, but not exclusively, on colonial and post-colonial states, the book considers how racialized militaries both shaped and reflected conflict in the modern world, ultimately explaining how the history of this idea has often underpinned modern military planning and thinking. This book is based on a special issue of Patterns of Prejudice.

Race and riots in Thatcher's Britain May 04 2020 This powerful and original book locates the anti-police violence that spread across England in 1980-1 within a longer struggle against racism and disadvantage faced by black Britons, which had seen a growth in more militant forms of resistance since the Second World War. It explains these disturbances as 'collective bargaining by riot' — attempts to increase political inclusion by this marginalised group. Through case studies of Bristol, Brixton and Manchester, the book explores the actions of community organisations in the aftermath of disorders. Highlighting the political activities of black Britons and the often-problematic reliance upon 'official' sources when forming historical narratives, it demonstrates the contested value awarded to public inquiries — contrastingly viewed by black Britons as either a method for increased political participation or simply a governmental diversionary tactic.
