The World Is Flat 3.0 Jun 27 2022 This Independence Day edition of The World is Flat 3.0 includes an an exclusive preview of That Used to Be Us: How America Fell Behind in the World It Invented and How We Can Come Back,

by Thomas L. Friedman and Michael Mandelbaum, on sale September 5th, 2011. A New Edition of the Phenomenal #1 Bestseller "One mark of a great book is that it makes you see things in a new way, and Mr. Friedman certainly succeeds in that goal," the Nobel laureate Joseph E. Stiglitz wrote in *The New York Times* reviewing *The World Is Flat* in 2005. In this new edition, Thomas L. Friedman includes fresh stories and insights to help us understand the flattening of the world. Weaving new information into his overall thesis, and answering the questions he has been most frequently asked by parents across the country, this third edition also includes two new chapters--on how to be a political activist and social entrepreneur in a flat world; and on the more troubling question of how to manage our reputations and privacy in a world where we are all becoming publishers and public figures. *The World Is Flat 3.0* is an essential update on globalization, its opportunities for individual empowerment, its achievements at lifting millions out of poverty, and its drawbacks--environmental, social, and political, powerfully illuminated by the Pulitzer Prize--winning author of *The Lexus and the Olive Tree*.

*The World Is Flat [Further Updated and Expanded; Release 3.0]* Aug 30 2022  
This new edition of Friedman's landmark book explains the flattening of the world better than ever- and takes a new measure of the effects of this change on each of us.

Tropic of Chaos Apr 13 2021 From Africa to Asia and Latin America, the era of climate wars has begun. Extreme weather is breeding banditry, humanitarian crisis, and state failure. In Tropic of Chaos, investigative journalist Christian Parenti travels along the front lines of this gathering catastrophe--the belt of economically and politically battered postcolonial nations and war zones girding the planet's midlatitudes. Here he finds failed states amid climatic disasters. But he also reveals the unsettling presence of Western military forces and explains how they see an opportunity in the crisis to prepare for open-ended global counterinsurgency. Parenti argues that this incipient "climate fascism"--a political hardening of wealthy states-- is bound to fail. The struggling states of the developing world cannot be allowed to collapse, as they will take other nations down as well. Instead, we must work to meet the challenge of climate-driven violence with a very different set of sustainable economic and development policies.

*Awakening of the Soul Sep 30 2022 In 2002, Grace J. Scott began to receive messages from those beyond the grave. Grace felt it her duty to record their voices, their thoughts, and even their warnings. Awakening of the Soul is the amazing result. This intriguing collection of channeled thoughts from souls in heaven, other planetary systems, and other universes will benefit those seeking spiritual growth as well as those wanting information about preparing for upcoming Earth changes. Much of the material is packed with information and requires time to read and digest while other material is simple and easily understood. Presented in chronological order as received in reflexology sessions, the conversations are completely original, unedited, and unorganized, straight from the spirit itself. Some spirits channeled big lessons for the general public or gave messages to individuals while some explained disasters, politics, wars, dreams, and events in our daily lives. But all of the souls have one thing in common: they bring news that Earth is cleansing itself at a rapid pace, and they are here to assist us through the cleansing and beyond. Epic in scope, Awakening of the Soul is a vital tool for those looking to the future and to the fate of Earth itself.*
