**Arguments, Stories and Criminal Evidence** Jul 30 2022 In this book a theory of

reasoning with evidence in the context of criminal cases is developed. The main subject of this study is not the law of evidence but rather the rational process of proof, which involves constructing, testing and justifying scenarios about what happened using evidence and commonsense knowledge. A central theme in the book is the analysis of ones reasoning, so that complex patterns are made more explicit and clear. This analysis uses stories about what happened and arguments to anchor these stories in evidence. Thus the argumentative and the narrative approaches from the research in legal philosophy and legal psychology are combined. Because the book describes its subjects in both an informal and a formal style, it is relevant for scholars in legal philosophy, AI, logic and argumentation theory. The book can also appeal to practitioners in the investigative and legal professions, who are interested in the ways in which they can and should reason with evidence.

*Evidence in Criminal Trials* Nov 29 2019 The law of evidence comprises the rules which govern the presentation of facts and proof in proceedings before a court. It is a subject of enormous importance to both practitioners and students. The principal objective of *Evidence in Criminal Trials*, 2nd edn, is to update the analysis of Irish law and policy on criminal evidence. Given its nature, the law of evidence is constantly evolving and, in particular, is actively developed by the courts and occasionally the legislature. In the five years since the first edition was published, judicial decisions have been handed down in each of areas covered in the book. This is particularly true of the broad field of Testimony (chapters 2 to 6) and the area of Pre-Trial Interviews with Suspects (chapter 9). Aside from updating the text in this general sense, the second edition will examine a number of landmark developments that have occurred over the past four years. In *DPP v JC (2015) IESC 31*, the Supreme Court delivered a groundbreaking decision effectively re-writing the law on unlawfully obtained evidence by relaxing the strict exclusionary rule that had been applied by the courts for the previous fifty years. The revised exclusionary rule has been applied in a number of recent cases. In 2017, the Oireachtas substantially amended the legislative regime of special measures for vulnerable witnesses. The Criminal Justice (Victims of Crime) Act 2017, which transposed the EU Victims' Rights Directive, has extended these measures in principle to crime victims who are at risk of secondary victimisation. It has also enhanced the range of existing measures for children and persons with certain intellectual disabilities who give evidence in trials for violent and/or sexual offences. The combined effect is a substantial amendment of Part 3 of the Criminal Evidence Act 1992. Both the Victims of Crime Act and the Criminal Law (Sexual Offences) Act 2017 have introduced important changes relating to the evidence of complainants in trials for sexual offences. This area of trial practice has been the subject of controversy and various proposals for policy reform have been put forward. In 2016, the Law Reform Commission published its long-awaited Report on Consolidation and Reform of Aspects of the Law of Evidence. The very length report includes recommendations in the areas of expert evidence and the law on hearsay (two significant chapters within the book). It also examines the law relating to documentary evidence and makes proposals for the consolidation of evidence legislation. The second edition will contain a new chapter on the subject of European Criminal Evidence. The central focus is on the Mutual Legal Assistance Act 2008 which provides the framework for the taking of

evidence located abroad. It also analyses various measures adopted under the auspices of the EU including the EU Directives on the Right of Access to a Lawyer, and on European Investigation Orders (which Ireland has not opted into). The current European Commission proposal for an instrument on European Preservation and Production Orders in relation to electronic evidence is also discussed. Includes references to the relevant case law of the European Court of Human Rights throughout the book. In addition, new material is added to existing chapters. For example, the discussion of the burdens and standards of proof will be extended (chapter 1) and the analysis of privilege (chapter 12). Similarly, the law on the admissibility of mixed statements will be included in the account of pre-trial interviews with suspects (chapter 9). The analysis of DNA evidence will be revised (chapter 10) by condensing some of the older material on point and including a review of the recent Supreme Court decision in DPP v Wilson (2017) IESC 54.

Principles of Evidence in International Criminal Justice Sep 07 2020 The Principles of Evidence in International Criminal Justice comes at an interesting point in time in the history of international criminal law. Fifteen years after their establishment, the ICTY and ICTR are slowly winding down their activities. Their contribution to the development and consolidation of an international law of evidence has been remarkable. It is therefore not unexpected that many contributions in the present volume cover first and foremost the jurisprudence of these two tribunals. In contrast, the International Criminal Court (ICC) has not yet concluded a full case cycle.

*In Crime's Archive* May 16 2021 This book investigates what happens to criminal evidence after the conclusion of legal proceedings. During the criminal trial, evidentiary material is tightly regulated; it is formally regarded as part of the court record, and subject to the rules of evidence and criminal procedure. However, these rules and procedures cannot govern or control this material after proceedings have ended. In its 'afterlife', criminal evidence continues to proliferate in cultural contexts. It might be photographic or video evidence, private diaries and correspondence, weapons, physical objects or forensic data, and it arouses the interest of journalists, scholars, curators, writers or artists. Building on a growing cultural interest in criminal archival materials, this book shows how in its afterlife, criminal evidence gives rise to new uses and interpretations, new concepts and questions, many of which are creative and transformative of crime and

evidence, and some of which are transgressive, dangerous or insensitive. It takes the judicial principle of open justice – the assumption that justice must be seen to be done – and investigates instances in which we might see too much, too little or from a distorted angle. It centres upon a series of case studies, including those of Lindy Chamberlain and, more recently, Oscar Pistorius, in which criminal evidence has re-appeared outside of the criminal process. Traversing museums, libraries, galleries and other repositories, and drawing on extensive interviews with cultural practitioners and legal professionals, this book probes the legal, ethical, affective and aesthetic implications of the cultural afterlife of evidence.
