Rawls's Law of Peoples Oct 27 2019 This volume examines Rawls's theory of international justice as worked out in his controversial last book, *The Law of Peoples*.

Social Justice Jan 23 2022 An eye for an eye, the balance of the scales – for centuries, these and other traditional concepts exemplified the public's perception of justice. Today, popular culture, including television shows like *Law and Order*, informs the public's vision. But do age-old symbols, portrayals in the media, and existing systems truly represent justice in all of its nuanced forms, or do we need to think beyond these notions? The second edition of *Social Justice: Theories, Issues, and Movements* responds to the need for a comprehensive introduction to these issues. Theories of social justice are presented in an accessible fashion to encourage engagement of students, activists, and scholars with these important lines of inquiry. Issues are analyzed utilizing various theories for furthering engagement in possibilities. Struggles for justice -- from legal cases to on the ground movements -- are presented for historical context and to inform the way forward.

Kant's Theory of Justice Dec 22 2021 In this accessible interpretation of Kant's political philosophy, Allen D. Rosen concentrates on the relation between justice, political authority (the state), and individual liberty.

Rawls's 'A Theory of Justice' Jun 23 2019 A Theory of Justice, by John Rawls, is widely regarded as the most important twentieth-century work of Anglo-American political philosophy. It transformed the field by offering a compelling alternative to the dominant utilitarian conception of social justice. The argument for this alternative is, however, complicated and often confusing. In this book Jon Mandle carefully reconstructs Rawls's argument, showing that the most common interpretations of it are often mistaken. For example, Rawls does not endorse welfare-state capitalism, and he is not a 'luck egalitarian' as is widely believed. Mandle also explores the relationship between A Theory of Justice and the developments in Rawls's later work, *Political Liberalism*, as well as discussing some of the most influential criticisms in the secondary literature. His book will be an invaluable guide for anyone seeking to engage with this ground-breaking philosophical work.

Transitional Justice Jul 05 2020 This collection on transitional justice sits as part of a library of essays on different concepts of 'justice'. Yet transitional justice appears quite different from other types of justice and fundamental ambiguities characterize the term that raise questions as to how it should sit alongside other concepts of justice. This collection attempts to capture and portray three different dimensions of the transitional justice field. Part I addresses the origins of the field which continue to bedevil it. Indeed the origins themselves are increasingly debated in what is an emergent contested historiography of the field that assists in understanding its contemporary quirks and concerns. Part II addresses and sets out parts of the 'tool-kit' of transitional justice, which could be understood as the canonical research agenda of the field. Part III tries to convey a sense of the way in which the field is un-folding and extending to new transitions, tools, theories of justice, and self-critique.

With Justice for All Sep 06 2020 "I am persuaded that the Church, as the steward of this gospel, holds the key to justice in our society. Either justice will come through us or it will not come at all." John Perkins's optimistic view of justice becoming a reality starts and ends with the Church. With *Justice for All* is Perkins's invitation to live out the gospel in a way that brings good news to the poor and liberty to the oppressed. This invitation is extended to every racial and ethnic group to be reconciled to one another, to work together to make our land all God wants it to be. And it is a blueprint—a practical strategy for the work of biblical justice in our time. In an age of changing demographics where the need to break the cycle of poverty is staring many of us in the face, Perkins offers hope through practical ministry principles that work. This outstanding resource includes reflection questions for personal or group study as well as interactive sessions for groups to participate in activities together.

The Little Book of Restorative Justice May 27 2022 Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

Principles of Social Justice Feb 21 2022 Social justice has been the animating ideal of democratic governments throughout the twentieth century. Even those who oppose it recognize its potency. Yet the meaning of social justice remains obscure, and existing theories put forward by political philosophers to explain it have failed to capture the way people in general think about issues of social justice. This book develops a new theory. David Miller argues that principles of justice must be understood contextually, with each principle finding its natural home in a different form of human association. Because modern societies are complex, the theory of justice must be complex, too. The three primary components in Miller's scheme are the principles of desert, need, and equality. The book uses empirical research to demonstrate the central role played by these principles in popular conceptions of justice. It then offers a close analysis of each concept, defending principles of desert and need against a range of critical attacks, and exploring instances when justice requires equal distribution and when it does not. Finally, it argues that social justice understood in this way remains a viable political ideal even in a world characterized by economic globalization and political multiculturalism. Accessibly written, and drawing upon the resources of both political philosophy and the social sciences, this book will appeal to readers with interest in public policy as well as to students of politics, philosophy, and sociology.

Reconstructing Rawls Jun 03 2020 Reconstructing Rawls has one overarching goal: to reclaim Rawls for the Enlightenment—more specifically, the Prussian Enlightenment. Rawls's so-called political turn in the 1980s, motivated by a newfound interest in pluralism and the accommodation of difference, has been unhealthy for autonomy-based liberalism and has led liberalism more broadly toward cultural relativism, be it in the guise of liberal multiculturalism or critiques of cosmopolitan distributive-justice theories. Robert Taylor believes that it is time to redeem A Theory of Justice's implicit promise of a universalistic, comprehensive Kantian liberalism. Reconstructing Rawls on Kantian foundations leads to some unorthodox conclusions about justice as fairness, to be sure: for example, it yields a more civic-humanist reading of the priority of political liberty, a more Marxist reading of the priority of fair equality of

opportunity, and a more ascetic or antimaterialist reading of the difference principle. It nonetheless leaves us with a theory that is still recognizably Rawlsian and reveals a previously untraveled road out of Theory—a road very different from the one Rawls himself ultimately followed.

Rousseau: 'The Discourses' and Other Early Political Writings Jul 17 2021 The work of Jean-Jacques Rousseau is presented in two volumes, which together form the most comprehensive anthology of Rousseau's political writings in English. Volume I contains the earlier writings such as the First and Second Discourses. The American and French Revolutions were profoundly affected by Rousseau's writing, thus illustrating the scope of his influence. Volume II contains the later writings such as the Social Contract. The Social Contract was publicly condemned on publication causing Rousseau to flee. In exile he wrote both autobiographical and political works. These volumes contain comprehensive introductions, chronologies, and guides to further reading, and will enable students to fully understand the writings of one of the world's greatest thinkers.

Brand New Justice Dec 30 2019 Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process is rehabilitated as a potential saviour of the economically underprivileged. Brand New Justice, now in a revised paperback edition, systematically analyses the success stories of the Top Thirteen nations, demonstrating that their wealth is based on the 'last mile' of the commercial process: buying raw materials and manufacturing cheaply in third world countries, these countries realise their lucrative profits by adding value through finishing, packaging and marketing and then selling the branded product on to the end-user at a hugely inflated price. The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt presents a cogent plan for developing nations to benefit from globalization. So long the helpless victim of capitalist trading systems, he shows that they can cross the divide and graduate from supplier nation to producer nation. Branding native produce on a global scale, making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the 'last mile' benefits are key to this graduation and fundamental to forging a new global economic balance. Anholt argues with a forceful logic, but also backs his hypothesis with enticing glimpses of this process actually beginning to take place. Examining activities in India, Thailand, Russia and Africa among others, he shows the risks, challenges and pressures inherent in 'turning the tide', but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms.

Justice as Fairness Jul 29 2022 This book originated as lectures for a course on political philosophy that Rawls taught regularly at Harvard in the 1980s. In time the lectures became a restatement of his theory of justice as fairness, revised in light of his more recent papers and his treatise *Political Liberalism* (1993). As Rawls writes in the preface, the restatement presents "in one place an account of justice as fairness as I now see it, drawing on all [my previous] works." He offers a broad overview of his main lines of thought and also explores specific issues never before addressed in any of his writings. Rawls is well aware that since the publication of *A Theory of Justice* in 1971, American society has moved farther away from the idea of justice as fairness. Yet his ideas retain their power and relevance to debates in a pluralistic society about the meaning and theoretical viability of liberalism. This book demonstrates that moral clarity can be achieved even when a collective commitment to justice is uncertain.

Reading Rawls Jan 11 2021 First published in 1975, this collection includes many of the best critical responses to John Rawls' *A Theory of Justice*, and the editor has elected to reissue the book without making any substitutions. As he argues in his new preface, the variety of issues raised in the original papers has been a major part of the book's appeal. He also acknowledges that no modest revision of this book could pretend to respond adequately to the considerable elaboration and evolution of Rawls' theory in the last fifteen years. Political philosophy has been one of the most exciting areas of philosophical activity in the years since *A Theory of Justice*, and much of that activity has been a response to Rawls' work. In his preface, the editor suggests how some of the insights and criticisms contained in the collection have had a bearing on developments in Rawls' theory and in political philosophy more generally, and that fresh reading of each of them reveals additional important points that have not yet received adequate attention. The contributors are: Benjamin Barber, Norman Daniels, Gerald Dworkin, Ronald Dworkin, Joel Feinberg, Milton Fisk, R.M. Hare, H.L.A. Hart, David Lyons, Frank Michelman, Richard Miller, Thomas Nagel, T.M. Scanlon, and A.K. Sen.

Crimes Against Humanity Aug 06 2020 In this fresh edition of the book which has inspired the global justice movement, Geoffrey Robertson QC explains why we must hold political and military leaders accountable for genocide, torture and mass murder – the crimes against humanity that have disfigured the world. He shows how human rights standards can be enforced against cruel governments, armies and multi-national corporations. This seminal work now contains a critical perspective on recent events, such as the invasion of Iraq, the abuses at AbuGhrah, the killings in Darfur, the death of Milosevic and the trial of Saddam Hussein. Cautiously optimistic about ending impunity, but unsparingly critical of diplomats, politicians, Bush lawyers and others who evade international rules, this third edition will provide further guidance to a movement which aims to make justice predominant in world affairs. 'A beacon of clear-sighted commitment to the humanitarian cause. . . impassioned. . . exemplary. . . seminal' Observer

Distributive Justice Aug 25 2019 A central component of justice is how the economic goods are distributed in a society. Philosophers contribute to distributive justice debates by providing arguments for principles to guide and evaluate the allocation of economic goods and to guide the design of institutions to achieve more just distributions. This volume includes both seminal and recent work by philosophers, covering a range of representative positions, including libertarian, egalitarian, desert, and welfare theorists. The introduction to the volume and the selections themselves are designed to allow students and professionals to see some of the most influential pieces that have shaped the field, as well as some key critics of these positions. The articles intersect in such a way as to develop an appreciation of the types of theories and the central issues addressed by theories of distributive justice. Furthermore, the choice of authors in this collection reflects an appreciation of the influence of institutions in general, markets in particular, and even luck on the distribution of economic goods.

John Rawls Sep 18 2021 John Rawls was one of the most important political philosophers of our time, and promises to be an enduring figure over the coming decades. His *Theory of Justice* (1971) has had a profound impact across philosophy, politics, law, and economics. Nonetheless Rawlsian theory is not easy to understand, particularly for beginners, and his writing can be dense and forbidding. Thomas Pogge's short introduction (originally published in German) gives a thorough and concise presentation of the main outlines of Rawls's theory, introduces biographical information when necessary, and draws links between the Rawlsian enterprise and other important positions in moral and political philosophy.

Justice Oct 20 2021 A renowned Harvard professor's brilliant, sweeping, inspiring account of the role of justice in our society—and of the moral dilemmas we face as citizens. What are our obligations to others as people in a free society? Should government tax the rich to help the poor? Is the free market fair? Is it sometimes wrong to tell the truth? Is killing sometimes morally required? Is it possible, or desirable, to legislate morality? Do individual rights and the common good conflict? Michael J. Sandel's "Justice" course is one of the most popular and influential at Harvard. Up to a thousand students pack the campus theater to hear Sandel relate the big questions of political philosophy to the most vexing issues of the day, and this fall, public television will air a series based on the course. Justice offers readers the same exhilarating journey that captivates Harvard students. This book is a searching, lyrical exploration of the meaning of justice, one that invites readers of all political persuasions to consider familiar controversies in fresh and illuminating ways. Affirmative action, same-sex marriage, physician-assisted suicide, abortion, national service, patriotism and dissent, the moral limits of markets—Sandel dramatizes the challenge of thinking through these conflicts, and shows how a surer grasp of philosophy can help us make sense of politics, morality, and our own convictions as well. Justice is lively, thought-provoking, and wise—an essential new addition to the small shelf of books that speak convincingly to the hard questions of our civic life.

A Brief Inquiry Into the Meaning of Sin and Faith Jan 29 2020 John Rawls never published anything about his own religious beliefs, but after his death two texts were discovered which shed extraordinary light on the subject. *A Brief Inquiry into the Meaning of Sin and Faith* is Rawls's undergraduate senior thesis, submitted in December 1942, just before he entered the army. The present volume includes these two texts, together with an Introduction by Joshua Cohen and Thomas Nagel, which discusses their relation to Rawls's published work, and an essay by Robert Merrihew Adams, which places the thesis in its theological context.

A Theory of Justice Sep 30 2022 Though the revised edition of *A Theory of Justice*, published in 1999, is the definitive statement of Rawls's view, so much of the extensive literature on Rawls's theory refers to the first edition. This reissue makes the first edition once again available for scholars and serious students of Rawls's work.

Suicide and Social Justice Oct 08 2020 *Suicide and Social Justice* unites diverse scholarly and social justice perspectives on the international problem of suicide and suicidal behavior. With a focus on social justice, the book seeks to understand the complex interactions between individual and group experiences with suicidality and various social pathologies, including inequality, intergenerational poverty, racism, sexism, and homophobia. Chapters investigate the underlying and often overlooked connections that link rising rates and disproportionate concentrations of suicide within specific populations to wider social, political, and economic conditions.

This edited volume brings diverse scholarly and social justice perspectives to bear on the problem of suicide and suicidal behavior, equipping researchers and practitioners with the knowledge they need to fundamentally rethink suicide and suicide prevention.

Against Common Sense Apr 25 2022 Drawing on his own experience teaching diverse grades and subjects, Kevin Kumashiro examines aspects of teaching and learning toward social justice, and suggests concrete implications for K-12 teachers and teacher educators.

New Directions in Restorative Justice Mar 13 2021 This book addresses a number of key themes and developments in restorative justice, and is based on papers originally presented at the 6th International Conference on Restorative Justice in Vancouver. It is concerned with several new areas of practice within restorative justice, with sections on restorative justice and youth, aboriginal justice and restorative justice, victimization and restorative justice, and evaluating restorative justice. Contributors to the book are drawn from leading experts in the field from the UK, US, Europe, Canada, Australia and New Zealand.

Of The Social Contract and Other Political Writings Nov 20 2021 'Man was born free, and everywhere he is in chains.' These are the famous opening words of a treatise that has stirred vigorous debate ever since its first publication in 1762. Rejecting the view that anyone has a natural right to wield authority over others, Rousseau argues instead for a pact, or 'social contract', that should exist between all the citizens of a state and that should be the source of sovereign power. From this fundamental premise, he goes on to consider issues of liberty and law, freedom and justice, arriving at a view of society that has seemed to some a blueprint for totalitarianism, to others a declaration of democratic principles. Translated by Quintin Hoare With a new introduction by Christopher Bertram

Understanding Health Inequalities and Justice May 03 2020 The need for informed analyses of health policy is now greater than ever. The twelve essays in this volume show that public debates routinely bypass complex ethical, sociocultural, historical, and political questions about how we should address issues of justice and equality in health care. Integrating perspectives from the humanities, social sciences, medicine, and public health, this volume illuminates the relationships between justice and health inequalities to enrich debates.

Understanding Health Inequalities and Justice explores three questions: How do scholars approach relations between health inequalities and ideals of justice? When do justice considerations inform solutions to health inequalities, and how do specific health inequalities affect perceptions of injustice? And how can diverse scholarly approaches contribute to better health policy? From addressing patient agency in an inequitable health care environment to examining how scholars of social justice and health care amass evidence, this volume promotes a richer understanding of health and justice and how to achieve both. The contributors are Judith C. Barker, Paula Braveman, Paul Brodwin, Jami Suki Chang, Debra DeBruin, Leslie A. Dubbin, Sarah Horton, Carla C. Keirns, J. Paul Kelleher, Nicholas B. King, Eva Feder Kittay, Joan Liaschenko, Anne Drapkin Lyerly, Mary Faith Marshall, Carolyn Moxley Rouse, Jennifer Prah Ruger, and Janet K. Shim.

The Idea of Justice May 15 2021 Presents an analysis of what justice is, the transcendental theory of justice and its drawbacks, and a persuasive argument for a comparative perspective on justice that can guide us in the choice between alternatives.

The Little Book of Restorative Justice in Education Sep 26 2019 A fully revised & updated handbook for teachers and administrators on creating just and equitable learning environments for students; building and maintaining healthy relationships; healing harm and transforming conflict. Much more than a response to harm, restorative justice nurtures relational, interconnected school cultures. The wisdom embedded within its principles and practices is being welcomed at a time when exclusionary discipline and zero tolerance policies are recognized as perpetuating student apathy, disproportionality, and the school-to-prison pipeline. Relying on the wisdom of early proponents of restorative justice, the daily experiences of educators, and the authors' extensive experience as classroom teachers and researchers, this Little Book guides the growth of restorative justice in education (RJE) into the future. Incorporating activities, stories, and examples throughout the book, three major interconnected and equally important aspects of restorative justice in education are explained and applied: creating just and equitable learning environments; building and maintaining healthy relationships; healing harm and transforming conflict. Chapters include: The Way We Do Things A Brief History of Restorative Justice in Education Beliefs and Values in Restorative Justice in Education Creating just and Equitable Learning Environments Nurturing Healthy relationships Repairing Harm and Transforming Conflict A Tale of Two Schools: Thoughts and Sustainability The Little Book of Restorative Justice in Education is a reference that practitioners can turn to repeatedly for clarity and consistency as they implement restorative justice in educational settings.

Whatever Happened to Justice? Mar 25 2022 Whatever Happened to Justice? explains the Legal Model and explores America's legal heritage. This book is selling all over the world. Readers tell us it causes them to think like nothing has in years. Whatever Happened to Justice? shows what's gone wrong with our legal system and economy and how to fix it. It also contains lots of helpful hints for improving family relationships and for making families and classrooms run more smoothly. Discusses the difference between higher law and man-made law, and the connection between rational law and economic prosperity. Whatever Happened to Justice? introduces the Two Laws: 1) Do all you have agreed to do, and 2) Do not encroach on other persons or their property. Richard Maybury examines: 1) There is a higher law than any government's law. 2) The government's law often contradicts Higher Law. 3) individuals must choose which law they will support and defend. The Cambridge Rawls Lexicon Nov 28 2019 John Rawls is widely regarded as one of the most influential philosophers of the twentieth century, and his work has permanently shaped the nature and terms of moral and political philosophy, deploying a robust and specialized vocabulary that reaches beyond philosophy to political science, economics, sociology, and law. This volume is a complete and accessible guide to Rawls' vocabulary, with over 200 alphabetical encyclopaedic entries written by the world's leading Rawls scholars. From 'basic structure' to 'burdened society', from 'sidgwick' to 'strains of commitment', and from 'Nash point' to 'natural duties', the volume covers the entirety of Rawls' central ideas and terminology, with illuminating detail and careful cross-referencing. It will be an essential resource for students and scholars of Rawls, as well as for other readers in political philosophy, ethics, political science, sociology, international relations and law.

In the Name of the Law Dec 10 2020 At a time when the crime rate has reached new peaks, criminal justice isn't working. It is no good at convicting criminals, and even worse at dealing with those it does convict. Meanwhile, the national debate about crime and criminal justice becomes even more shrill, and its participants mired ever deeper in archaic cliché. IN THE NAME OF THE LAW challenges equally the ebbing shibboleths of the liberal left, and the terrifying revenge justice of the right. It asks what can be learned about our society from the way it treats its criminals and organises its policemen. The book concludes that criminal justice provides the starkest pointer to a twenty-first-century hell: a two-thirds/one-third society, with the comfortable defending themselves against a desperate minority with guns and fortifications. Rose argues that these are measures which can be taken to avoid the Los Angeles-like world we seem to be creating.

The Inheritance of Wealth Jul 25 2019 Daniel Halliday examines the moral grounding of the right to bequeath or transfer wealth. He engages with contemporary concerns about wealth inequality, class hierarchy, and taxation, while also drawing on the history of the egalitarian, utilitarian, and liberal traditions in political philosophy. He presents an egalitarian case for restricting inherited wealth, arguing that unrestricted inheritance is unjust to the extent that it enables and enhances the intergenerational replication of inequality. Here, inequality is understood in a group-based sense: the unjust effects of inheritance are principally in its tendency to concentrate certain opportunities into certain groups. This results in what Halliday describes as 'economic segregation'. He defends a specific proposal about how to tax inherited wealth: roughly, inheritance should be taxed more heavily when it comes from old money. He rebuts some sceptical arguments against inheritance taxes, and makes suggestions about how tax schemes should be designed.

Justice and the Politics of Difference Apr 01 2020 "In this classic work of feminist political thought, Iris Marion Young challenges the prevailing reduction of social justice to distributive justice. The starting point for her critique is the experience and concerns of the new social movements that were created by marginal and excluded groups, including women, African Americans, and American Indians, as well as gays and lesbians. Young argues that by assuming a homogeneous public, democratic theorists fail to consider institutional arrangements for including people not culturally identified with white European male norms. Consequently, theorists do not adequately address the problems of an inclusive participatory framework. Basing her vision of the good society on the culturally plural networks of contemporary urban life, Young makes the case that normative theory and public policy should undermine group-based oppression by affirming rather than suppressing

social group differences"--Provided by publisher.

*Little Book of Trauma Healing* Feb 09 2021 Following the staggering events of September 11, 2001, the Center for Justice and Peacebuilding at Eastern Mennonite University was asked to help, along with Church World Service, to equip religious and civil leaders for dealing with traumatized communities. The staff and faculty proposed Strategies for Trauma Awareness and Resilience (STAR) programs. Now, STAR director, Carolyn Yoder, has shaped the strategies and learnings from those experiences into a book for all who have known terrorism and threatened security. A startlingly helpful approach. A title in *The Little Books of Justice and Peacebuilding Series*.

*A Theory of Justice* Aug 30 2022 John Rawls aims to express an essential part of the common core of the democratic tradition—justice as fairness—and to provide an alternative to utilitarianism, which had dominated the Anglo-Saxon tradition of political thought since the nineteenth century. Rawls substitutes the ideal of the social contract as a more satisfactory account of the basic rights and liberties of citizens as free and equal persons. "Each person," writes Rawls, "possesses an inviolability founded on justice that even the welfare of society as a whole cannot override." Advancing the ideas of Rousseau, Kant, Emerson, and Lincoln, Rawls's theory is as powerful today as it was when first published. Though the revised edition of *A Theory of Justice*, published in 1999, is the definitive statement of Rawls's view, much of the extensive literature on his theory refers to the original. This first edition is available for scholars and serious students of Rawls's work.

*A Theory of Justice, Revised Edition* Nov 01 2022 Previous edition, 1st, published in 1971.

*The Big Book of Restorative Justice* Apr 13 2021 The four most popular restorative justice books in the *Justice & Peacebuilding series*—*The Little Book of Restorative Justice: Revised and Updated*, *The Little Book of Victim Offender Conferencing*, *The Little Book of Family Group Conferences*, and *The Little Book of Circle Processes*—in one affordable volume. And now with a new foreword from Howard Zehr, one of the founders of restorative justice! Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal while holding criminals accountable for their actions. This is not a soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. Circle processes draw from the Native American tradition of gathering in a circle to solve problems as a community. Peacemaking circles are used in neighborhoods, in schools, in the workplace, and in social services to support victims of all kinds, resolve behavior problems, and create positive climates. Each book is written by a scholar at the forefront of these movements, making this important reading for classrooms, community leaders, and anyone involved with conflict resolution.

*Design Justice* Mar 01 2020 An exploration of how design might be led by marginalized communities, dismantle structural inequality, and advance collective liberation and ecological survival. What is the relationship between design, power, and social justice? "Design justice" is an approach to design that is led by marginalized communities and that aims explicitly to challenge, rather than reproduce, structural inequalities. It has emerged from a growing community of designers in various fields who work closely with social movements and community-based organizations around the world. This book explores the theory and practice of design justice, demonstrates how universalist design principles and practices erase certain groups of people—specifically, those who are intersectionally disadvantaged or multiply burdened under the matrix of domination (white supremacist heteropatriarchy, ableism, capitalism, and settler colonialism)—and invites readers to "build a better world, a world where many worlds fit; linked worlds of collective liberation and ecological sustainability." Along the way, the book documents a multitude of real-world community-led design practices, each grounded in a particular social movement. *Design Justice* goes beyond recent calls for design for good, user-centered design, and employment diversity in the technology and design professions; it connects design to larger struggles for collective liberation and ecological survival.
