**From Student to Scholar** Feb 24 2022 Steven M. Cahn's advice on the professorial life covers an extensive range of critical issues: how to plan, complete, and defend a dissertation; how to navigate a job interview; how to improve teaching performance; how to prepare and publish research; how to develop a professional network; and how to garner support for tenure. He deals with such hurdles as a difficult dissertation advisor, problematic colleagues, and the pressures of the tenure clock. Whether you are beginning graduate study, hoping to secure an academic position, or striving to build a professorial career, Cahn's insights are invaluable to traversing the thickets of academia.

*Direct Sales and Direct Faith in Latin America* Mar 16 2021 Since 1990, direct sales have attracted over two million recruits in Mexico and are characterized by a belief in the power of positive thinking. Through an ethnographic portrait, Peter S. Cahn demonstrates that the quasi-religious commission of self-empowerment accounts for the explosive growth of commission-based sales in the developing world.

*Chronicling Cultures* Aug 21 2021 Some field sites have hosted anthropologists for as long as half a century. *Chronicling Cultures* collects articles from principals of many of the longest and best-known anthropology projects from four continents--the Kung, Harvard Chiapas Project, Gwembe Valley, Tzintzuntzan, and Navajo among others. These projects have brought a new understanding of change and persistence in communities over time. They have forced researchers to develop methods of involving local communities in research, of using data over generations of scholars, and of resolving ethical issues of research versus advocacy. The projects range from individual scholars who return "home" year after year to large-scale

institutionalized projects involving many researchers and numerous studies. This volume will be an important addition to the literature on fieldwork, on the history of ethnology, and on ethnographers' role in their host cultures.

Exploring Ethics Nov 23 2021 In this remarkably accessible, concise, and engaging introduction to moral philosophy, Steven M. Cahn brings together a rich, balanced, and wide-ranging collection of fifty-two readings on ethical theory and contemporary moral issues. He has carefully edited all the articles to ensure that they will be exceptionally clear and understandable to undergraduate students. The selections are organized into three parts--Challenges to Morality, Moral Theories, and Moral Problems--providing instructors with flexibility in designing and teaching a variety of ethics courses. Each reading is followed by study questions. The fifth edition features twelve new articles and unparalleled representation of women philosophers, with nearly half of the essays authored or coauthored by women. A password-protected Instructor's Manual is available on the book's Ancillary Resource Center. Visit the book's free, open-access Companion Website for additional student and instructor resources.

Introducing Ethics May 18 2021 Introducing Ethics: A Critical Thinking Approach with Readings combines guiding commentary and questions with a rich selection of concise, carefully edited, and accessible readings on ethical theory and contemporary moral issues. This unique introduction shows students how to do philosophy by first analyzing texts--identifying ethical positions and the arguments that support them--and then evaluating the truth of those positions and the soundness of the arguments. In doing so, it provides students with a uniquely engaging introduction to ethics that also hones their critical thinking skills. FEATURES \* A unique Unit 1 gives students the conceptual tools to "do" philosophy with coverage of logic, arguments, moral reasoning, and reading and writing philosophy \* Extended

coverage of the three main areas of ethics--metaethics, normative ethics, and applied ethics--addresses issues often ignored by other texts, including ethics vs. science, moral responsibility, moral vs. legal issues, torture, terrorism, and more \* Unit and chapter introductions outline major themes and issues and explain why they matter \* Reading questions precede the essays and focus students' studying on key points, while discussion questions follow the readings and help students move into the evaluation phase \* "Argument Reconstruction Exercises" after each reading provide practice in identifying the premises and conclusions in the essays \* An Instructor's Manual with Test Bank on CD is available to adopters \* A Companion Website at [www.oup.com/us/mcbrayer](http://www.oup.com/us/mcbrayer) provides all the material contained on the CD along with student resources (all of this material can also be made available for any Learning Management System)

**Differential Geometry and Relativity** Aug 09 2020 On the occasion of the sixtieth birthday of Andre Lichnerowicz a number of his friends, many of whom have been his students or coworkers, decided to celebrate this event by preparing a jubilee volume of contributed articles in the two main fields of research marked by Lichnerowicz's work, namely differential geometry and mathematical physics. Limitations of space and time did not enable us to include papers from all Lichnerowicz's friends nor from all his former students. It was equally impossible to reflect in a single book the great variety of subjects tackled by Lichnerowicz. In spite of these limitations, we hope that this book reflects some of the present trends of fields in which he worked, and some of the subjects to which he contributed in his long - and not yet finished - career. This career was very much marked by the influence of his masters, Elie Cartan who introduced him to research in mathematics, mainly in geometry and its relations with mathematical physics, and Georges Darmon who developed his interest for mechanics and physics, especially the theory of relativity and electromagnetism. This particular combination of

Some of his works would even be best qualified by a new field name, that of physical mathematics: branches of pure mathematics entirely motivated by physics.

**Ethics** Dec 01 2019 Ethics: The Fundamentals explores core ideas and arguments in moral theory by introducing students to different philosophical approaches to ethics, including virtue ethics, Kantian ethics, divine command theory, and feminist ethics. The first volume in the new Fundamentals of Philosophy series. Presents lively, real-world examples and thoughtful discussion of key moral philosophers and their ideas. Constitutes an excellent resource for readers coming to the subject of ethics for the first time.

*The World of Philosophy* Jun 06 2020 Accessible, flexible, and affordable, *The World of Philosophy: An Introductory Reader*, Second Edition, presents philosophy in all its diverse array of thought and practice, offering standard Western historical and analytic materials alongside writings from Chinese, Indian, Native-American, African American, continental, and other sources. Approximately 25% of the contemporary readings are by women, including leading feminist theorists. Many articles have been edited to sharpen their focus and make them understandable to students with little or no background in philosophy. The readings are enhanced by introductions, study questions, and a glossary at the end of the book. Featuring not only essential readings from the Western canon but also selections on compelling topics like Hindu and Buddhist conceptions of the self, Confucian and Buddhist morality, world hunger, animal rights, sexism, and racism, *The World of Philosophy*, Second Edition, offers students a distinctive blend of traditional and non-traditional perspectives.

**A Philosopher's Journey** Feb 12 2021 For over fifty years Steven M. Cahn has been a prolific contributor to discussions of philosophical and educational issues. In this volume he has chosen his favorite articles from the 1960s to the present, reflecting his long-standing interests in the concept of free will, the rationality of religious belief, the insights of John Dewey, the affirmative action debate, the aims of higher education, and the nature of living well. Also included are several philosophical puzzles. Professor Cahn is a noted teacher and lecturer, and these essays reflect his skills at explaining complex ideas with clarity and defending challenging positions with cogency. His work demonstrates how philosophical inquiry can be both engaging and enlightening.

**The Harbinger** Jan 14 2021 "The Harbinger opens with the appearance of a man burdened with a message he has received from a mysterious figure called The Prophet. The Prophet has given him nine seals, each containing a message about America's future ... As the story unfolds, each revelation becomes a piece in a greater puzzle -- the ramifications of which will even alter the course of world history."--Publisher's website.

*Morality and Public Policy* Apr 28 2022 This anthology explores a variety of positions on recent, controversial, social problems—all of which involve government policy. The wide-range of contemporary issues includes allowing/encouraging immigration, use of school vouchers, government control over drugs and guns, same-sex marriages, government support of the arts, affirmative action, the death penalty, and the legitimacy of legally restricting the sale of pornography. For anyone seeking to clarify their understanding and thinking about rights and wrongs in public affairs.

Moral Philosophy: Readings in Metaethics is a comprehensive, state-of-the-art collection of fifty-six contemporary readings and historical sources on major issues in metaethics. It focuses on the meaning of moral terms, the nature of moral truth, and the reasons that are used to support moral judgments. While other anthologies include mostly articles by men, this volume features unparalleled representation of women philosophers, with one-third of the contemporary articles authored or coauthored by women. Wherever appropriate, the articles have been carefully edited to ensure that they will be exceptionally clear and understandable to undergraduate students. The volume is enhanced by an insightful general introduction, introductions and study questions for each selection, and a detailed glossary.

**Philosophical Adventures** May 06 2020 Philosophical Adventures is a clear, concise introduction to philosophy, covering an engaging set of topics: reasoning, free will, religious belief, ethics, well-being, politics, and education. Stylishly written and cogently argued, the book engages readers by using compelling examples to make complex ideas accessible. The book's distinctive and engaging content provides a welcoming path to understanding the appeal of philosophical inquiry.

2019 Having a good grasp of the theories of child development and how these translate into practice can make a positive difference to how you understand babies and children and the ways in which you can help them learn. This approachable guide offers easy access to a wide range of concepts, as well as classic and current theories, about how babies and children learn. Each chapter offers clear guidance on how to recognise the theory in action and suggests ways to test these ideas out in early years settings, supporting the development of reflective practice. Case studies are included throughout, along with questions to guide thinking and encourage readers to develop their practice. Summaries conclude each chapter offering a quick reference of the theory examined and the benefits of applying it to practice. Early Childhood Theories and Contemporary Issues is an essential guide for all those looking to develop and enhance their practice in supporting child development within the early years.

**Religion Within Reason** Dec 25 2021 In the views of most believers and critics, religion is essentially connected to the existence of a supernatural deity. If supernaturalism is not reasonable, the argument goes, religion cannot be reasonable—or if supernaturalism is reasonable, religion must be as well. Are faith and reason, religion and science, doomed to a constant struggle for the heart of humanity? Steven M. Cahn believes that they are not, that even if God exists, religion may not be justified and that even if religion is justified, belief in God may not be. In *Religion Within Reason*, Cahn argues that the common understanding of the relationship between religion and supernaturalism is flawed and that while supernaturalism is not reasonable, religious commitment may well be. Writing not as a theist but as one who finds much to admire in a religious life, he examines faith and reason, miracles, heaven and hell, religious diversity, and the problem of evil, using a variety of examples taken from religious thought, literature, and popular culture.

**The Elements of Philosophy** Sep 09 2020 The Elements of Philosophy: Readings from Past and Present is a comprehensive collection of historical and contemporary readings across the major fields of philosophy. With depth and quality, this introductory anthology offers a selection of readings that is both extensive and expansive; the readings span twenty-five centuries. They are organized topically into five parts: Religion and Belief, Moral and Political Philosophy, Metaphysics and Epistemology, Philosophy of Mind and Language, and Life and Death. The product of the collaboration of three highly respected scholars in their fields - Tamar Szabó Gendler, Susanna Siegel, and Steven M. Cahn - The Elements of Philosophy also includes introductions from the editors, explanatory footnotes, and a glossary.

*Political Problems* Sep 29 2019 This anthology is intended to be used in Political Philosophy courses. It focuses on contemporary political problems, and it is intended to be paired with any of the numerous readers which are dedicated to the history of political philosophy. History, theory, and political problems are the three pillars of the political philosophy course. However, while the anthologies on the history of political philosophy are numerous, there are relatively few sources (and even fewer single sources) that focus on contemporary political problems. This book fills that gap, with the leading contemporary positions on school vouchers, government support for the arts, pornography, same sex marriage, drug legalization, gun control, terrorism, torture, capital punishment, affirmative action, Immigration, and the environment.

The second part, Modern Ethical Theory, includes many of the most important essays of the twentieth and twenty-first centuries. The third part, Contemporary Moral Problems, presents the current debates over such issues as abortion, social justice, environmentalism, affirmative action, and sexual harassment. Nearly forty percent of the modern readings are authored by women. The book is enhanced by part introductions, selection introductions, and study questions. The seventh edition includes twelve new essays.

**Principles of Moral Philosophy** Oct 11 2020 Principles of Moral Philosophy: Classic and Contemporary Approaches covers all the major theories in normative ethics--relativism, egoism, divine command theory, natural law, Kantian ethics, consequentialism, pluralism, social contract theory, virtue ethics, the ethics of care, and particularism--and also includes sections on applied ethics and metaethics. It provides students with a balanced introduction to an array of approaches to topics in normative ethics, offering traditional theories alongside criticisms of them. The readings are enhanced by a variety of pedagogical features including a general introduction, an introduction to each reading, study questions after each reading, and a glossary of key terms. With one-third of its contemporary readings authored by women, Principles of Moral Philosophy is the most inclusive and balanced normative ethics reader available. A password-protected Instructor's Manual is available on the book's Ancillary Resource Center.

best sellers *The Harbinger*, *The Mystery of the Shemitah*, *The Book of Mysteries*, and *The Paradigm*, now unveils *The Oracle*, in which he opens up the Jubilean mysteries and a revelation so big that it lies behind everything from the rise and fall of nations and empires (even America), to the current events of our day, to the future, to end-time prophecy, and much more. Could an ancient prophecy and a mysterious ordinance given in a Middle Eastern desert over three thousand years ago be determining the events of our day? Could some of the most famous people of modern history and current events be secretly linked to this mystery—even a modern president of the United States? Could this ancient revelation pinpoint the events of our times down to the year, month, and day of their occurring? Could a mysterious phenomenon be manifesting on the world stage on an exact timetable determined from ancient times? Could these manifestations have altered—and now be altering—the course of world events? Jonathan Cahn takes the reader on a journey to find the man called the Oracle. One by one each of the Jubilean mysteries will be revealed through the giving of a vision. *The Oracle* will uncover the mysteries of *The Stranger*, *The Lost City*, *The Man With the Measuring Line*, *The Land of Seven Wells*, *The Birds*, *The Number of the End*, *The Man in the Black Robe*, *The Prophet's Song*, *The Matrix of Years*, *The Day of the Lions*, *The Awakening of the Dragon*, and much more. The reader will discover the ancient scrolls that contain the appointed words that have determined the course of world history from the onset of modern times up to our day. The revelation is so big that it will involve and open up the mysteries of everything and everyone from Mark Twain to Moses, from King Nebuchadnezzar to Donald Trump, from the fall of empires to the rise of America, from a mystery hidden in a desert cave to another in an ancient scroll, from the palace of the Persian Empire to the US Senate, from the Summer of Love to the Code of Babylon, and much, much more. Classics of Political and Moral Philosophy Jun 30 2022 *Classics of Political and Moral Philosophy* provides in one volume the major writings from nearly 2,500 years of political and moral philosophy, from Plato through the twentieth century. The most comprehensive collection of its kind, it moves from classical thought (Plato, Aristotle, Epicurus, Cicero) through medieval views (Augustine, Aquinas) to modern perspectives (Machiavelli, Hobbes, Spinoza, Locke, Rousseau, Hume, Adam Smith, Kant). It includes major nineteenth-century thinkers (Bentham, Hegel, Mill) and considerably more twentieth-century theorists than are found in competing volumes (Rawls, Nozick, Taylor, Foucault, Habermas, Held, Nussbaum). Also included are numerous essays from *The Federalist Papers* and a variety of notable documents and addresses, among them Pericles' Funeral Oration, *The Declaration of Independence*, *The Constitution of the United States*, *The Declaration of the Rights of Man and of the Citizen*, and speeches by Edmund Burke, Abraham Lincoln, Elizabeth Cady Stanton, John Dewey, and Martin Luther King, Jr. The readings are substantial or complete texts, not fragments. The second edition contains two new readings—by Charles Taylor and Virginia Held—and adds *The Universal Declaration of Human Rights*.

Rights. It also presents two works by John Locke in their entirety and includes a new translation of Kant's Groundwork for the Metaphysics of Morals. An especially valuable feature of this volume is that the writings of each author are introduced with a substantive and engaging essay by a leading contemporary authority. These introductions include Richard Kraut on Plato, Aristotle, Epicurus, and Cicero; Paul J. Weithman on Augustine and Aquinas; Roger D. Masters on Machiavelli; Jean Hampton on Hobbes; Steven B. Smith on Spinoza and Hegel; A. John Simmons on Locke; Joshua Cohen on Rousseau and Rawls; Donald W. Livingston on Hume; Charles L. Griswold, Jr., on Smith; Bernard E. Brown on Hamilton and Madison; Jeremy Waldron on Bentham and Mill; Paul Guyer on Kant; Richard Miller on Marx and Engels; Thomas Christiano on Nozick; Robert B. Talisse on Charles Taylor; Thomas A. McCarthy on Foucault and Habermas; Cheshire Calhoun on Held; and Eva Feder Kittay on Nussbaum. Offering unprecedented breadth of coverage, *Classics of Political and Moral Philosophy, Second Edition*, is an ideal text for courses in political philosophy, social and political philosophy, moral philosophy, or surveys in Western civilization.

[All Religions Are Good in Tzintzuntzan](#) Sep 21 2021 Since the 1960s, evangelical Christian denominations have made converts throughout much of Roman Catholic Latin America, causing clashes of faith that sometimes escalate to violence. Yet in one Mexican town, Tzintzuntzan, the appearance of new churches has provoked only harmony. Catholics and evangelicals alike profess that "all religions are good," a sentiment not far removed from "here we are all equal," which was commonly spoken in the community before evangelicals arrived. In this paradigm-challenging study, Peter Cahn investigates why the coming of evangelical churches to Tzintzuntzan has produced neither the interfaith clashes nor the economic prosperity that evangelical conversion has brought to other communities in Mexico and Latin America. Drawing on extensive ethnographic fieldwork,

demonstrates that the evangelicals' energetic brand of faith has not erupted into violence because converts continue to participate in communal life, while Catholics, in turn, participate in evangelical practices. He also underscores how Tzintzuntzan's integration into global economic networks strongly motivates the preservation of community identity and encourages this mutual borrowing. At the same time, however, Cahn concludes that the suppression of religious difference undermines the revolutionary potential of religion.

Problems in Higher Education brings together key essays that explore ethical issues in academia. The editor and contributors - all noted philosophers and educators - consider such topics as academic freedom and tenure, free speech on campus, sexual harassment, preferential student admissions, affirmative action in faculty appointments, and the ideal of a politically neutral university. Chapters address possible restrictions on research because of moral concerns, the structure of peer review, telling the truth to colleagues and students, and concerns raised by intercollegiate athletics. Cahn selects two key readings in each are to offer a readable introductory guide to these critical subjects for students studying academic ethics and higher education policy. In addition to the selections and a general introduction, Cahn provides study questions for use in the classroom.

**Fate, Time, and Language** Apr 16 2021 In 1962, the philosopher Richard Taylor used six commonly accepted presuppositions to imply that human beings have no control over the future. David Foster Wallace not only took issue with Taylor's methods, but also noted a semantic trick at the heart of Taylor's argument. Fate, Time, and Language presents Wallace's critique of Taylor's work. Wallace's thesis reveals his great skepticism of abstract thinking made to function as a negation of something more genuine and real. He was especially suspicious of the cerebral aestheticism of modernism and the clever gimmickry of postmodernism, which abandoned "the very old traditional human verities that have to do with spirituality and emotion and community." As Wallace rises to meet the challenge to free will presented by Taylor, we witness the developing perspective of this major novelist and his struggle to establish logical ground for his convictions. This volume, edited by Steven M. Cahn and Maureen Eckert, reproduces Taylor's original article and other works on fatalism cited by Wallace. James Ryerson's introduction connects Wallace's early philosophical work to the theme of

**Happiness in World History** Oct 23 2021 Happiness in World History traces ideas and experiences of happiness from early stages in human history, to the maturation of agricultural societies and their religious and philosophical systems, to the changes and diversities in the approach to happiness in the modern societies that began to emerge in the 18th century. In this thorough overview, Peter N. Stearns explores the interaction between psychological and historical findings about happiness, the relationship between ideas and popular experience, and the opportunity to use historical analysis to assess strengths and weaknesses of dominant contemporary notions of happiness. Starting with the advent of agriculture, the book assesses major transitions in history for patterns in happiness, including the impact of the great religions, the unprecedented Enlightenment interest in secular happiness and cheerfulness, and industrialization and imperialism. The final, contemporary section covers fascist and communist efforts to define alternatives to Western ideas of happiness, the increasing connections with consumerism, and growing global interests in defining and promoting well-being. Touching on the experiences in the major regions of Asia, Africa, Latin America, Europe, and North America, the text offers an expansive introduction to a new field of study. This book will be of interest to students of world history and the history of emotions.

and make them understandable to students with little or no background in philosophy. The book also reflects the importance of women's contributions to the field; 40% of the contemporary readings are by women. In addition, topics often minimized in other collections are covered in more depth here, including forgiveness and love; ritual, prayer, and worship; gender; speaking of God; and the afterlife.
