New York • Publishers Weekly
• BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and

everything," he wrote. "Seven words from Samuel Beckett began to repeat in my head: 'I can't go on. I'll go on.'" When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

This timely book brings the inspiring wisdom of Viktor Frankl to modern audiences. *Ripples for Reflection* Feb 10 2021
Thinking to Transform Nov 21 2021 In an era of constant connection, it can be challenging to prioritize time for reflection. Taking time to think can feel like a luxury or even a waste time. People facilitating complex leadership processes may feel the least able to pause and reflect. However, it is through intentional reflection that we make meaning of experiences, connect ideas, question assumptions, and generate innovative possibilities. By taking time to reflect, individually and with others, learners can see the full picture of an experience, understand their thought processes, and enhance their capacity for leadership. Beyond individual reflection, by engaging in reflection on social issues with others, leaders can be empowered and enabled to create positive changes. This book is a clarion call for educators and learners to make reflection a central priority. Reflection, the process of

making meaning of experience, and leadership, a relational process for affecting change, are enhanced by one another. Together, they strengthen the potential for leadership learning through experience. This book addresses challenges for reflection in leadership learning while also connecting it to timely topics. It begins with connections between reflection and leadership and then introduces a framework for reflection in leadership learning. Reflection is a powerful strategy curricular and co-curricular learning; for instruction and assessment, reflection in leadership learning can benefit from both intentional framing and feedback. As socially constructed concepts, both reflection and leadership have historically lacked clarity; to add to the confusion, critical reflection is often interchanged with reflection. This book introduces a continuum of critical reflection in leadership learning. In order to facilitate reflection in leadership learning, educators must engage in the inner work of becoming reflective educators. Finally, in the face of complex social challenges, reflection, leadership, mindfulness, and resilience are juxtaposed in order to highlight how these concepts are reliant upon one another. Reflection in leadership learning is essential for anyone who wants to develop their capacity for leadership. When faced with complex social issues and challenges at a global scale, the only way to make progress is through collective action that

results from critical reflection. To develop more resilient and mindful learners who can adapt to changing circumstances, educators must center reflection in leadership learning as a philosophy, pedagogy, outcome, and strategy. This book provides a balance of theory and practice to empower and enable educators to engage in reflective leadership learning.

A Rhetoric of Reflection Apr 14 2021 Reflection in writing studies is now entering a third generation. Dating from the 1970s, the first generation of reflection focused on identifying and describing internal cognitive processes assumed to be part of composing. The second generation, operating in both classroom and assessment scenes in the 1990s, developed mechanisms for externalizing reflection, making it visible and thus explicitly available to help writers. Now, a third generation of work in reflection is emerging. As mapped by the contributors to *A Rhetoric of Reflection*, this iteration of research and practice is taking up new questions in new sites of activity and with new theories. It comprises attention to transfer of writing knowledge and practice, teaching and assessment, portfolios, linguistic and cultural difference, and various media, including print and digital. It conceptualizes conversation as a primary reflective medium, both inside and outside the classroom and for individuals and collectives, and articulates the role that different genres play in hosting

reflection. Perhaps most important in the work of this third generation is the identification and increasing appreciation of the epistemic value of reflection, of its ability to help make new meanings, and of its rhetorical power—for both scholars and students.

Handbook of Reflection and

Reflective Inquiry Jun 16 2021 Philosophers have warned of the perils of a life spent without reflection, but what constitutes reflective inquiry - and why it's necessary in our lives - can be an elusive concept. Synthesizing ideas from minds as diverse as John Dewey and Paulo Freire, the *Handbook of Reflection and Reflective Inquiry* presents reflective thought in its most vital aspects, not as a fanciful or nostalgic exercise, but as a powerful means of seeing familiar events anew, encouraging critical thinking and crucial insight, teaching and learning. In its opening pages, two seasoned educators, Maxine Greene and Lee Shulman, discuss reflective inquiry as a form of active attention (Thoreau's "wide-awakeness"), an act of consciousness, and a process by which people can understand themselves, their work (particularly in the form of life projects), and others. Building on this foundation, the *Handbook* analyzes through the work of 40 internationally oriented authors: - Definitional issues concerning reflection, what it is and is not; - Worldwide social and moral conditions contributing to the growing interest in reflective inquiry in professional education; - Reflection as promoted across professional educational domains, including K-12 education, teacher education, occupational therapy, and the law; - Methods of facilitating and scaffolding reflective engagement; - Current pedagogical and research practices in

reflection; - Approaches to assessing reflective inquiry. Educators across the professions as well as adult educators, counselors and psychologists, and curriculum developers concerned with adult learning will find the Handbook of Reflection and Reflective Inquiry an invaluable teaching tool for challenging times.

The Children's Story Jan 30 2020 It was a simple incident in the life of James Clavell—a talk with his young daughter just home from school—that inspired this chilling tale of what could happen in twenty-five quietly devastating minutes. He writes, "The

Children's Story came into being that day. It was then that I really realized how vulnerable my child's mind was —any mind, for that matter—under controlled circumstances. Normally I write and rewrite and re-rewrite, but this story came quickly—almost by itself. Barely three words were changed. It pleases me greatly because I kept asking the questions... Questions like, What's the use of 'I pledge allegiance' without understanding? Like Why is it so easy to divert thoughts? Like What is freedom? and Why is so hard to explain? The Children's Story keeps asking me all sorts of questions I cannot answer. Perhaps you can—then your child will..."

Reflection in CBT Mar 26 2022 Developing skills and competency in CBT is a complex process of which self-observation and self-reflection are an essential part. In this new book, leading figures Beverly Haarhoff and Richard Thwaites outline the rationale for a focus on self-reflective practice in CBT, before offering practical and accessible guidelines demonstrating how this can be achieved in training and practice. Highlighting relevant research throughout and using case studies to illustrate theory in practice, ten chapters consider: - reflection in training and in supervision and self-supervision, - reflecting on the therapeutic relationship, on our sociocultural perceptions and biases and on client feedback - how reflection is vital to self-care and to becoming a better therapist, supervisor and trainer. This is an essential read for trainees in both high and low intensity CBT programmes, those on broader CBT courses, and for qualified practitioners working

independently to enhance their self-reflective capacity.

Learning Critical Reflection Sep 07 2020 Learning Critical Reflection documents the actual learning experiences of social work students and practitioners. It explores how a more in-depth understanding of the process of learning, combined with an analysis of how to critically reflect, will help improve the learning process. The contributors are all professionals who have learnt, in a formalised way, how to critically reflect on their practice. They speak in depth, and with feeling, about their experiences, how downsides and upsides worked together to transform the way they understood themselves, their professional identity, and their practice. Existing literature about critical reflection is reviewed, identifying the details of learning, and pulling no punches in recognising the difficulty and complexity of becoming transformed through this learning process. The editors of this book also contribute their own reflections

on learning how to teach critical reflection and include the findings of a research study conducted on students' learning. Edited by two experienced educators, this book showcases the process of learning, from the perspective of the learners, in order that educators and students, managers, supervisors, and frontline practitioners alike, may make the most of opportunities to critically reflect in both educational and workplace settings. It should be considered essential reading for social work students, practitioners, and educators.

The Memory Keeper's Daughter Nov 02 2022 A #1 New York Times bestseller by Kim Edwards, *The Memory Keeper's Daughter* is a brilliantly crafted novel of parallel lives, familial secrets, and the redemptive power of love. So begins this beautifully told story that unfolds over a quarter of a century—in which these two families, ignorant of each

other, are yet bound by the fateful decision made that winter night long ago. A family drama, *The Memory Keeper's Daughter* explores every mother's silent fear: What would happen if you lost your child and she grew up without you? It is also an astonishing tale of love and how the mysterious ties that hold a family together help us survive the heartache that occurs when long-buried secrets are finally uncovered.

Reflection In The Writing Classroom Apr 26 2022 Yancey explores reflection as a promising body of practice and inquiry in the writing classroom. Yancey develops a line of research based on

concepts of philosopher Donald Schon and others involving the role of deliberative reflection in classroom contexts. Developing the concepts of reflection-in-action, constructive reflection, and reflection-in-presentation, she offers a structure for discussing how reflection operates as students compose individual pieces of writing, as they progress through successive writings, and as they deliberately review a compiled body of their work-a portfolio, for example.

Throughout the book, she explores how reflection can enhance student learning along with teacher response to and evaluation of student writing.

Reflection in the Writing Classroom will be a valuable addition to the personal library of faculty currently teaching in or administering a writing program; it is also a natural for graduate students who teach writing courses, for the TA training program, or for the English Education program.

A Teacher's Reflection Book

Feb 22 2022 In university teachers' hectic lives, finding space to reflect, restore, renew, and recommit can seem impossible. Jean Koh Peters and Mark Weisberg believe it is possible and have designed A Teacher's Reflection Book to help teachers and other

professionals find that space. Growing out of the authors' extensive experience facilitating retreats and leading teaching and learning workshops, the book builds on their discoveries in those settings, supporting and promoting teachers' self-directed development. Both about reflection and an invitation to practice it, A Teacher's Reflection Book is a cornucopia of stories, exercises, and examples that will inspire teachers to make reflection a cornerstone of their daily lives. With its multiple suggestions and strategies, it offers something for every reader, and is responsive to teachers' needs at all stages of their careers. The book's six chapters offer readers several perspectives from which to reflect. Some sections offer glimpses of teachers in the midst of their daily teaching lives, while others step away, inviting readers to reflect on what it means to have a vocation as a teacher. The book explores how we listen, a crucial yet rarely taught skill, essential for reflecting, as well as for learning and teaching. And it invites teachers to reflect on their students: who they are, and what and how

they learn. For those latter reflections, the authors turn the focus on fear, which so pervades university life and which can distort learners' and teachers' perspectives and responses. In this chapter readers will visit several classrooms and listen to the evocative voices of several thoughtful students. Revelatory, practical, and wise, A Teacher's Reflection Book is a valuable companion and guide. *I Am Every Good Thing* Jan 24 2022 An upbeat, empowering, important picture book from the team that created the award-winning *Crown: An Ode to the Fresh Cut*. A perfect gift for any special occasion! I am a nonstop ball of energy. Powerful and full of light. I am a go-getter. A difference maker. A leader. The confident Black narrator of this book is proud of everything that makes him who he is. He's got big plans, and no doubt he'll see them through--as he's creative, adventurous, smart, funny, and a good friend. Sometimes he falls, but he always gets back up. And other times he's afraid, because he's so often misunderstood and called what he is not. So slow down and really look and listen, when somebody tells you--and shows you--who they are. There are superheroes in our midst!
