***-Steven P. Isaak, Mathematics Teacher Advanced Technologies Academy, Las Vegas, NV Spark student learning by making an authentic connection between math and real-life experiences! Students often fail to make the connection between "school math" and their everyday lives, becoming passive recipients of isolated, memorized rules and formulas. This remarkable new resource will help students become active problem-solvers who see mathematics as a meaningful tool that can be used outside the classroom. Hope Martin applies more than 40 years of teaching experience to developing a myriad of high-interest,***

**meaningful math investigations. Using a teacher-friendly format, she shows educators how to integrate into the math curriculum engaging, everyday topics, such as forensics, natural disasters, tessellations, the stock market, and literature. This project-based resource encourages cooperative, interactive learning experiences that not only help students make connections between various math skills but also make important connections to the real world. Aligned to NCTM standards, these mathematical applications are broken down into complete units focusing on different topics. Each chapter includes: Background information on the topic Step-by-step procedures for math investigations Assessment strategies Journal questions Reproducible worksheets Additional related readings and Internet Web sites By increasing their awareness of meaningful everyday applications, students will learn to use math as an essential tool in their daily lives.**

**Choices & Connections Aug 01 2022 Choices & Connections shows students that communication is an opportunity to connect their words and actions to their choice of who they want to be and what kind of community they want to live in. Every element in the text is designed to engage students in the study of communication and help them become resilient, confident, and culturally conscious communicators. Choices & Connections helps students integrate and apply the most current scholarly research through scenario activities, real-life situations, and pop-culture examples designed to recursively develop communication skills best learned through practice, in context. The third edition has been extensively revised to ensure that all students' perspectives are represented. The coverage of gender communication has been overhauled, with a reimagined Chapter 3 on "Understanding Gender and Culture." The mediated communication chapter has also been heavily revised with the latest research.**

**Nice Bike Apr 04 2020 Nice Bike is a collection of stories based on making meaningful connections with others in both your work and in your life. It's about being a part of a community, knowing that contributions matter and experiencing a greater affiliation with others. The premise begins at the 2003 Harley-Davidson Motorcycle company's 100 year anniversary celebration. Thousands and thousands of bikers throughout the world attended the event. As a Harley owner stood proudly by his bike at that event, what two words from a passerby would have made their weekend? "Nice Bike." "Nice Bike" is more than a casual compliment. It's the engine that is fueled with the three actions of acknowledging, honoring and connecting with others. Nice Bike can help you with your daily interactions, create more meaningful relationships and add more joy in your journey on the road of life. When you have a better understanding of how to make meaningful connections, you can live a life filled with a greater sense of self worth and accomplishment in your work and in your life. Acknowledge, honor, and connect and you will change the world, one person at a time.**

**Cool Connections with CBT for Groups, 2nd Edition Jan 02 2020 A group programme for young people, that focuses on preventing anxiety and depression by building self-esteem, resilience and wellbeing. **42 Rules for Effective Connections (2nd Edition) May 06 2020 Tired of the same 'ole networking chatter? Do you think anyone is really listening to what you have to say? Wish you were somewhere else? If you have to network to grow your business and find yourself spending money going to events, meeting as many people as possible and returning to the office with a handful of business cards without the results you want, you can benefit from the strategies presented in '42 Rules for Effective Connections (2nd Edition).' For anyone who wants to improve communication, get better results in any networking environment and alleviate the stress and anxiety that comes from building a business where you have to go out to meet potential customers this book is a must-read. The author provides a broad range of strategies that make the difference between networking that is 'hit and miss' versus networking that hits the bull's eye. If you are serious about growing your business and simply are missing the mark on how to make your behavior stand out, or if you are achieving success already and want to step up your game, this book will open the door to new possibilities. There are literally thousands of networking organizations available for anyone wanting to participate. This book is not about which meeting to attend; this book is about how to get better results when you get there! In this book you will learn: How to position yourself in a crowded marketplace? How to start conversations? What to say to make yourself memorable? How to insure that others will want to do business with us? What can we do to improve our performance? Author, Bonnie Ross-Parker has a background in franchising and network marketing. For more than two decades, she has attended countless networking meetings and events and constantly witnesses the same scenario -- individuals pushing their card in your hand and asking you to call them when you need the service they offer! With all the business books that have been written, all the emphasis on building relationships, there is still a total misunderstanding of what it takes to build one's business. Relationships are key. Building rapport is key. Being a good listener is key. Read this book to learn more and be a better networker.**

**Connections Mar 16 2021 The second in a now three-book series, Connections is a basic writing text geared to the paragraph-to-essay level. The aim of Connections is to help students make the connection between reading, writing, and critical thinking all important skills for success in college. Not a traditional workbook, Connections take a top-down approach to writing instruction. The text moves beyond traditional sentence and paragraph exercises, offering a wide variety of activities and opportunities for journaling, supplemental readings, quick reference guides, and unique step-by-step writing assignments. Connections guides developmental writers gently through every stage of the writing process.**

**Social Theory Re-Wired May 18 2021 This social theory text combines the structure of a print reader with the ability to tailor the course via an extensive interactive website.**

**Readings from important classical and contemporary theorists are placed in conversation with one another through core themes—the puzzle of social order, the dark side of modernity, identity, etc. The website includes videos, interactive commentaries, summaries of key concepts, exams and quizzes, annotated selections from key readings, classroom activities, and more. See the website at [www.routledgesoc.com/theory](http://www.routledgesoc.com/theory) New to the second edition: Expanded web content. Teacher/student feedback employed to clarify difficult concepts. Reframed contemporary section now offers readings by Robert Merton, Bruno Latour, David Harvey, Zygmunt Bauman, and Anthony Giddens.**

**Making Connections Jun 26 2019 Provides multiple thematic reading selections for each comprehension skill, allowing students to build content knowledge while giving teachers the framework for scaffolded instruction. The multiple selection format allows teachers to withdraw support gradually from selection to selection, as students gain confidence in using comprehension strategies flexibly and independently.**

**Connections Jul 28 2019**

**Connections Oct 23 2021 Are you looking for a college success resource that speaks to the all aspects of a student's college experience? Connections is an innovative new text that offers the ideal balance of motivation, academics, and life skills. It starts with comprehensive coverage of the topics typically covered in the introductory course but has a unique emphasis on goal-setting, life skills and career planning. In every chapter, students are encouraged to take a positive, success-oriented approach to this course - and to life in general - by working to strengthen their strengths, celebrate progress, and use setbacks as opportunities for growth. With an emphasis on self-knowledge, and on building skills for college and career success, Connections empowers students to become self-regulated, collaborative learners - learners who thrive in school, on the job, and in the community.**

**Making Connections High Intermediate Student's Book Apr 16 2021 A textbook for enhancing academic reading skills among students of English.**

**Making Connections Level 2 Student's Book Sep 21 2021 Making Connections teaches an extensive range of reading skills and strategies in order to prepare students for college reading. Making Connections Second edition Level 2 Student's Book introduces fundamental reading skills and strategies such as identifying main ideas, interpreting information in charts and graphs, and preparing for reading tests. It features a variety of high-interest topics including news media, education, global business, population growth, fashion and design, and the brain.**

**Connections Sep 02 2022 Readers learn about the connections among world societies - from regional to global. Connections: A World History is a reader-centered text that focuses on connections within and among world societies. Concise, engaging chapters and a clear narrative make the often overwhelming amount of information in world history accessible to a wide range of readers. A uniquely comprehensive and consistent map program is combined with strong pedagogical support for increased understandability. The authors' focus on connections offers a useful and compelling framework for understanding how and why peoples and societies change over time. Note: MyHistoryLab does not come automatically packaged with this text. To purchase MyHistoryLab, please visit [www.MyHistoryLab.com](http://www.MyHistoryLab.com) or use ISBN: 9780205216529.**

**Personal Connections in the Digital Age Jun 30 2022 The internet and the mobile phone have disrupted many of our conventional understandings of ourselves and our**

**relationships, raising anxieties and hopes about their effects on our lives. In this second edition of her timely and vibrant book, Nancy Baym provides frameworks for thinking critically about the roles of digital media in personal relationships. Rather than providing exuberant accounts or cautionary tales, it offers a data-grounded primer on how to make sense of these important changes in relational life Fully updated to reflect new developments in technology and digital scholarship, the book identifies the core relational issues these media disturb and shows how our talk about them echoes historical discussions about earlier communication technologies. Chapters explore how we use mediated language and nonverbal behavior to develop and maintain communities, social networks, and new relationships, and to maintain existing relationships in our everyday lives. The book combines research findings with lively examples to address questions such as: Can mediated interaction be warm and personal? Are people honest about themselves online? Can relationships that start online work? Do digital media damage the other relationships in our lives? Throughout, the book argues that these questions must be answered with firm understandings of media qualities and the social and personal contexts in which they are developed and used. This new edition of Personal Connections in the Digital Age will be required reading for all students and scholars of media, communication studies, and sociology, as well as all those who want a richer understanding of digital media and everyday life.**

**Deep Human Connection Nov 11 2020 New in paperback (originally published as Soul Friends): Yoga master Stephen Cope explores the essence of human connections through six types of relationships. As the Senior Scholar-in-Residence for over 25 years at the renowned Kripalu Center, Stephen Cope has spent decades investigating--and writing about--the integration of body, mind, and spirit and the rich complexity of our relationships with others, and with ourselves. Perhaps the central truth that arises from his work is this: human beings are universally wired for one thing--vital connection with one another. Now available for the first time in paperback (and originally published as Soul Friends), this book invites us on a compelling journey into the connectivity of the human psyche, the study of which has fascinated scholars, philosophers, and thinkers for centuries. Cope seamlessly blends science, scholarship, and storytelling, drawing on his own life as well as the histories of famous figures--from Eleanor Roosevelt to Charles Darwin to Queen Victoria--whose formative relationships shed light on the nature of friendship itself. In his exploration, he distills human connection into six distinct yet interconnected mechanisms: containment, twinship, adversity, mirroring, identification, and conscious partnership. Then he invites us to reflect on how these forms of connection appear in our own lives, helping us work toward a fuller understanding of "who we have become and who we will become." Without a doubt, the journey to our most fulfilled selves requires us to look within. But in order to truly thrive, we must make the most of who we are in relation to one another as well. Unsparingly honest, deeply wise, and irresistibly readable, Deep Human Connection gives us a map to find our way.**

**Connection Culture Jun 18 2021 Tap Into the Power of Human Connection Creating a thriving organization where employees feel valued, the environment is energized, and high productivity and innovation are the norm requires a new kind of leader who fosters a culture of connection within the organization. Connection Culture, 2nd Edition, is your game-changing opportunity to become that leader and to begin fostering a connection culture in your organization. Stop undermining performance and take the first step toward change that will give your organization, your team, and everyone you lead a true competitive advantage. Inspiring and practical, this book challenges you to set the performance bar high and keep reaching. Learn how to: • Foster a connection culture. • Emulate best practices of connected teams—from Mayo Clinic physicians and scientists to**

**the creators of the award-winning Broadway musical Hamilton. • Boost vision, value, and voice within your organization. Published in the shadow of the COVID-19 pandemic, the book messages the authors' hope for post-traumatic growth; provides updated, research-supported theories about the relationship of stress and loneliness; and includes new examples and profiles of great leaders communicating during crisis.**

**Connection Parenting Jun 06 2020 "Connection Parenting" is based on author Pam Leo's seven week parenting series, "Meeting the Needs of Children," that she has been teaching for over sixteen years. The premise is that a strong parent-child bond is the key to children's optimal human development and our most effective parenting tool. Connection Parenting is a proactive approach to parenting that supports parents and caregivers in creating and maintaining the strong bonds children need to thrive.**

**The Overstory Book Apr 28 2022 Whether in a small backyard or a larger farm or forest, trees are vital to the web of life. Protecting and planting trees can restore wildlife habitat, heal degraded land, conserve soil, protect watersheds, diversify farm or garden products, beautify landscapes, and enhance the economic and ecological viability of land use systems. Careful planning and sound information is needed to reach these goals. The Overstory Book distills essential information about working with trees into 134 short, easy-to-read, single-subject chapters. Each chapter shares key concepts and useful information, so readers can get back to planting and protecting more trees, gardens, and forests, more effectively. \* Discover time-tested agricultural and conservation techniques from indigenous and traditional peoples \* Work with beneficial microorganisms, from mycorrhizal fungi to nitrogen-fixing bacteria and more \* Create abundance with fruit trees, timber trees, vine crops, vegetables, mushrooms, and more \* Form alliances with animals, from wildlife, birds, and insects to integrated, free-range livestock \* Design effective tree-based windbreaks, noise barriers, live fences, and erosion buffers \***

**Understand how to grow or obtain the highest quality seeds, seedlings, and plant materials \* Restore fertility, productivity, and biodiversity with trees \* Work with multipurpose plants including trees, palms, bamboos, and more \* Market products effectively to improve economic returns sustainably \* Locate helpful internet sites, organizations, people, and publications \* And much more!**

**The Sociology of Community Connections Sep 09 2020 Many of our current social problems have been attributed to the breakdown or loss of community as a place and to the fragmentation of connections due to an extreme value of individualism in the Western world, particularly in the United States. Not all scholars and researchers agree that individualism and technology are the primary culprits in the loss of community as it existed in the middle decade of the 20th century. Nonetheless, people exist in groups, and connections are vital to their existence and in the daily performance of activities. The second edition of the Sociology of Community Connections will identify and help students understand community connectedness in the present and future.**

**Microeconomic Theory Mar 28 2022 This book introduces the main concepts of microeconomics to students who have undergone at least one elementary calculus course. It fully integrates graphical and mathematical concepts and offers analytical examples demonstrating numerical solutions. The book has a strong theoretical basis but shows how microeconomics can be brought to bear on the real world. New Features for this edition include: An incorporation of the theory of stock externalities associated with greenhouse gases ; Development of the section on insurance with particular reference to the new US healthcare program ; greater integration of game theoretic concepts throughout the book. The book's style is accessible, but also rigorous. Mathematical examples are provided throughout the book, in particular for key concepts and the result is a balanced approach in terms of prose, graphics, and mathematics.**

**Making Connections Feb 01 2020 Advance vital reading comprehension skills through a balance of appealing nonfiction and fiction titles, focus on strategies and skills critical for reading comprehension, and nonfiction features such as indexes, glossaries, tables of contents, and captions.**

**Chemistry Connections Jul 08 2020 This collection of contemporary examples of chemistry in action highlights the fundamental role of chemical principles in governing everyday experiences. It is presented in a question-and-answer format of topical subjects.**

**Core Connections Aug 28 2019**

**Choices & Connections Dec 25 2021 Based on decades of teaching experience combined with the latest in research and communication theory, Steve McCornack and Joseph Ortiz's Choices & Connections, 2e helps students to transform their lives and become more adaptive and versatile communicators. With a focus on the connections that underlie all communication choices—and that the outcomes students experience are deeply connected to the communication choices they make—Choices & Connections, 2e weaves together major communication contexts so that students' understanding becomes cohesive. Captivating students from page one, the text is highlighted by built-in study tools, innovative video case study activities, and a variety of news, pop culture, and real-life examples—all of which encourage students to apply what they learn to their own their daily communication experiences. When combined with LaunchPad, Choices & Connections, 2e represents a unique print and digital learning suite: the How to**

**Communicate video activities immerse students in challenging, real-life scenarios, and additional videos illustrate communication concepts, and the adaptive quizzing program, LearningCurve, creates a personalized learning experience. LaunchPad for Choices & Connections, 2e combines an interactive e-book, integrated videos, and ready-made assessment options curated into easy-to-assign units inside one convenient learning program. The second edition LaunchPad also includes new in-class activities for students to further engage with the course material, and with each other.**

***Making Connections Level 1 Student's Book May 30 2022* This title introduces first-time readers of academic text to basic reading strategies such as finding paragraph topics, finding supporting details and learning to read quickly.**

***Making Connections Mar 04 2020* This comprehensive reading text was designed especially for academically and professionally oriented students. The activities provide a wide variety of practice opportunities.**

***Applied Biomechanics Feb 24 2022* Written for undergraduate biomechanics courses, *Applied Biomechanics: Concepts and Connections, Second Edition* is a comprehensive resource that focuses on making connections between biomechanics and other subdisciplines of exercise science. With that in mind, each chapter contains a Concepts section and a Connections section. The Concepts are the core nuts and bolts of understanding the mechanics of movement. The Connections are designed to show how the Concepts are used in the many diverse areas within the movement sciences.**

***Making Connections in Elementary and Middle School Social Studies Jul 20 2021* *Making Connections in Elementary and Middle School Social Studies, Second Edition* is the best text for teaching primary school teachers how to integrate social studies into other content areas. This book is a comprehensive, reader-friendly text that demonstrates how personal connections can be incorporated into social studies education while meeting the National Council for the Social Studies(tm) thematic, pedagogical, and disciplinary standards. Praised for its eoewealth of strategies that go beyond social studies teaching,e including classroom strategies, pedagogical techniques, activities and lesson plan ideas, this book examines a variety of methods both novice and experienced teachers alike can use to integrate social studies into other content areas.**

***Connections Feb 12 2021* The first edition of *Connections* was chosen by the National Association of Publishers (USA) as the best book in OC Mathematics, Chemistry, and Astronomy OCo Professional and ReferenceOCO in 1991. It has been a comprehensive reference in design science, bringing together in a single volume material from the areas of proportion in architecture and design, tilings and patterns, polyhedra, and symmetry. The book presents both theory and practice and has more than 750 illustrations. It is suitable for research in a variety of fields and as an aid to teaching a course in the mathematics of design. It has been influential in stimulating the burgeoning interest in the relationship between mathematics and design. In the second edition there are five new sections, supplementary, as well as a new preface describing the advances in design science since the publication of the first edition. Contents: Proportion in Architecture; Similarity; The Golden Mean; Graphs; Tilings with Polygons; Two-Dimensional Networks and Lattices; Polyhedra: Platonic Solids; Transformation of the Platonic Solids I; Transformation of the Platonic Solids II; Polyhedra: Space Filling; Isometries and Mirrors; Symmetry of the Plane. Readership: Polytechnic students, architects, designers, mathematicians and general readers."**
