*Bedtime Stories for Kids* Oct 29 2019 Are you a parent struggling with getting your child go to bed? Fights over bedtime can be one of the biggest power struggles a parent has with his child, as many kids just don't want to go to bed at night. After a long day playing, running around and using energy children need to wind down. Putting them to bed and expecting them to fall asleep right away can be quite difficult, but having a bedtime routine where you read a story together can help them calm down, relax, and reduce their stress levels which will help them to sleep better. Bedtime stories are so important because they will help develop kids' imagination. By listening to the story their little brains receive so many ideas, and they are able to predict what is going to happen next or come up with their own endings. Imagination helps to create and to dream. Albert Einstein once said that "Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world". In this book you will find light stories and beautiful characters to help your child calm down and prepare for a comfortable and cozy night's sleep. So what are you waiting for? Is it very hard to find stories that can grab your kid attention? If you answered yes to any questions, then this book could help you! Keep reading... With the busy schedule that we have as parents, getting time to spend with our children becomes very challenging. Children also become busy with the tight school and home schedules that they don't get the opportunity to relax or meditate. One of the ways we can effectively bond with our children and create a room for deep thinking is by reading them bedtime stories before they sleep. These stories, use both the principles of a good bedtime story and the principles of mindful meditation to make a sort of story-meditation hybrid, aimed at kids. Children are more interested in fantastical stories than they are in just pure meditation. For that reason, the aspects of mindful meditation are blended in with fascinating narratives that will keep your children pleasantly entertained. In *Bedtime Stories for Kids* you will be able to find bedtime and meditation stories. Children are instructed to slowly relax and to open up their imaginations for a story, and to really feel like

they are there while it is happening. Furthermore, children engage with fantastical characters and situations that might make them laugh and feel empathy for the characters themselves. A child listening to these stories feels like they are watching a movie, only that movie happens directly in their mind. The many lessons that a child can learn from these stories gives them something to think about. The stories are designed to be easily identifiable with children of all ages. Mindfulness meditation alone is a good method to increase things like emotional intelligence and empathy in both children and adults. With these stories empathy is increased even more, forming a direct narrative where the child can empathize with the characters and apply the same lessons to real life scenarios. Reading bedtime stories to children is a long-standing tradition and a very healthy habit. These fantastic stories will stimulate his imagination and will help him to relax and have a peaceful sleeping. Reading every night these stories you will create a healthy routine for your kid.
